

Mailing

Desktop Mailing Systems

DM100® Enhanced Series (DM175/185/195)

In-house mail made easy.

Do more for less.

Mailing can be a financial obstacle for small businesses. By simplifying your mail processing, you can regain control of your communications. Pitney Bowes DM100 Enhanced Series desktop mailing systems makes it easy.

By delivering the efficiency and accuracy you need, you can configure a solution that's ideal for your operations. Powered by our IntelliLink® software technology, the DM100 series streamlines your shipping and mailing, reduces costs and provides revenue-generating opportunities.

For more information, visit us online.

Keep up-to-date in one touch.

Keep current with postage regulations, updates, meter refills and software upgrades with the click of a button.

Improve costs via flexible printing.

Eliminate costly pre-printed envelopes with:

- The included six standard slogans and one custom slogan. (Additional custom slogans can be added).
- Preloaded graphics, logos and up to 20 stored promotional messages.

Increase revenue by adding promotional messaging²

One size actually fits all.

Designed to seamlessly integrate into any office environment, with:

- Silent operation.
- Sleek, space-saving design.
- Multiple options for connectivity.

Process with accuracy and precision.

The DM100® series can handle any organisations needs at a moment's notice.

- Feed mail pieces up to 9.5mm thick.
- Process up to 40 pieces per minute.
- With self-adhesive tape strips and integrated 5kg scale, you can weigh, rate and print postage for all of your mail and parcels, all at once.

Increase speed and efficiency with differential weighing

Future-proof your day-to-day operations.
