Connect+® 1000

Meet your everyday challenges.

Be prepared for the unexpected.

Sending out bills, statements and customer communications are a necessary part of doing business. It can be demanding.

The Connect+ 1000 can help you meet those challenges with ease. The system can seal and print postage for long or short runs, thin or thick mail as well as small or large envelopes. The Connect+ 1000 mailing system is designed with versatility and simplicity in mind so that you can complete each job quickly and accurately.

Manage any job with ease with the Connect+ 1000.

For everyday jobs or more complicated mailings, the Connect+ 1000 mailing system process mail quickly and easily. And with the modern touch screen display, any operator in your office can set up a job in order to get the mail done correctly and on time.

The Connect+ 1000

- Seals and prints postage on like-size mail at up to 180 letters per minute
- Automatically processes mail up to 16mm thick for both portrait and landscape mail
- Quickly helps process parcels with an attached scale and differential weighing
- Prints downloaded graphics across the top of the envelope with print-shop quality

Handle your daily mail and big jobs fast.

Intuitive interface: Postal rules can be complicated and can cost your business time and money. The Connect+® 1000 mailing system guides your operators with its easy-to-follow menu on the colour touch screen. This speeds up mail processing including the larger and heavier mail pieces that cannot be fed automatically.
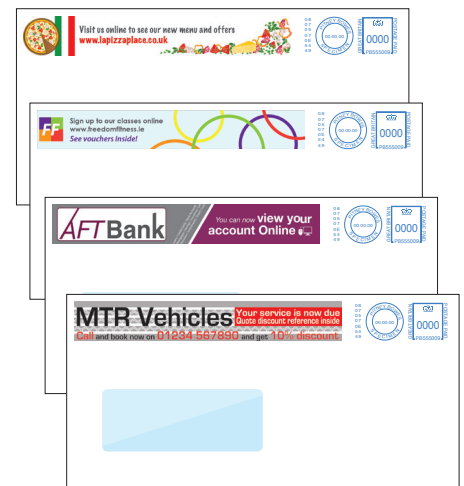

Manage finances:
The Connect+ 1000 mailing system makes it easy to track postage by helping you manage your postage purchases and expense allocations by department or by job. Plus, the optional INVIEW™ Dashboard gives you remote web access to reporting and analysis of your mailing operations for one or multiple sites.
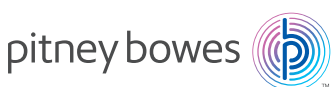

Flexible features: The Connect+ 1000 includes standard features to help mail centres complete their jobs quickly and accurately. Additional options help support your unique needs for productivity such as a power stacker or account code scanning.

Go beyond printing postage to save costs and drive revenue.

Colour printing flexibility: With the Connect+ 1000 mailing system, you're in control. Choose what colour to print a return address, business logo or promotional message on your envelopes. Print just one or print a thousand. The savings add up as this enables quick changeover that eliminates expensive, special order printing.
