

Desktop Mailing System DM100™ Enhanced Series DM175/185/195

The DM100™ Enhanced Series desktop mailing systems provide so much more!

Today, small businesses need to operate as efficiently as possible. Even daily, routine tasks need to be performed in a productive manner. The time has come to expect more from your current mail processing procedures.

The all new, easy-to-use, DM100™ Enhanced Series Desktop Mailing Systems will amaze you with their simplicity and convenient capabilities. Optional components provide the flexibility to configure a solution that meets your specific mailing requirements.

IntelliLink™ Technology makes mailing easier.

Our cutting-edge IntelliLink™ Technology is the gateway to new levels of productivity and makes the DM100™ Enhanced Series easier to use and efficient. Plus, you can gain access to a suite of services that include postal rate updates, software upgrades, and you can even download new advertising slogans, postal inscriptions, and logos. This ensures that your system keeps current and operates at maximum efficiency.

Introducing the DM100™ Enhanced Series of lower volume, high capability mail systems.

Small footprint saves space

- Its compact, innovative and sleek design fits into even the smallest of offices.

Operates quietly

- The DM100™ Enhanced Series is so quiet that it won't distract your office environment.

Saves you valuable time and money

- Efficiently process all your mail in one go using Differential Weighing. Place all your mail on the scale, as you remove each mailpiece the meter calculates the correct rate. Ink usage can be minimised by processing all your mail in one go reducing the number of purges by the print head.

Multiple connectivity options

- NEW LAN connectivity allows for faster downloads of rates, software upgrades and postage refills. The meter can also be connected through PC Meter Connect or analogue phone line.

Handles flats and parcels too

- Process mail pieces up to 9.5mm thick. Larger mail is quickly processed with self-adhesive tape strips. The NEW heavy duty scale platform with 5kg capacity makes weighing bulky articles easy.

Engage your customers

- Use your envelopes to communicate with your customers through printed advertising slogans. Create your own messages or utilise one of the preloaded options². Store up to 20 slogans, accessed with the touch of a button.

Auto-dating eliminates returned mail due to misdating

- An internal clock advances the date automatically. Operators can also manually advance the date to get a jump on processing tomorrow's mail.

IntelliLink™simplicity that leads to greater efficiencies

- You'll learn to use the DM100™ Enhanced Series in only minutes. The convenient control panel has dedicated labelled keys for faster processing.

Digital technology is a gateway to the future

- Its digital postage indicia is compliant to Australia Post standards. The technology's flexibility makes the DM100™ Enhanced Series adaptable for the future; update the meter's capabilities as your business grows.

Reconcile expenses

- Today, it's crucial for businesses to account for postage expenses. Departmental tracking is made simple with the ability to manage up to 100 accounts¹.

Add value to your mail with advertising slogans² or text

Save time with differential weighing

Flexible configuration options to meet your individual requirements, and feature upgradable as your business grows
