DM195™SL Digital postage meter

Connected metering for real-time productivity.

Experience mailroom productivity and greater ease of use.

The DM195™ SL Digital postage meter uses the very latest technologies to achieve fast, connected and accurate mail processing... all within a connected environment.

Simplify your mailing operations with SmartLink working behind the scenes so your mailing system stays up-to-date.

Boost productivity with digital technology.

Maximum productivity and connectivity is crucial for business today. By simplifying your mail processing, you can regain control of your communications. Pitney Bowes DM195 SL desktop mailing systems makes it easy.

By delivering the efficiency and accuracy you need, you can configure a solution that's ideal for your operations. Powered by our SmartLink™ technology, the DM195 SL streamlines your shipping and mailing, reduces costs and provides revenue-generating opportunities.

Mailing made simple with SmartLink™.

Keeping the DM195 SL current and operating at maximum efficiency is simple. SmartLink™ gives you a digital connection to make it easy and convenient to update postal rates, software and graphics.

The benefits of your cloud connected DM195 SL meter include:
• Automatic postal rate updates and software updates.
• Remote diagnostics with support and error troubleshooting notifications.
• Our Customer Care Team can help you in real-time with precise information about the status of your meter functionality, funds, low ink alerts and connectivity.

Manage your mail efficiently and accurately.
• Automatic feed speeds processing.
• Process up to 40 letters per minute.
• 5kg integrated scale as standard.

Improve costs via flexible printing.
Eliminate costly pre-printed envelopes with:
• The included six standard slogans and one custom slogan. (Additional custom slogans can be added).
• Preloaded graphics, logos and up to 20 stored promotional messages.

Internal rating function.
Select the most effective and economical postage rate automatically.

Instant online refill postage.
Access postage replenishment online, 24/7.

Auto-dating eliminates returned mail.
The internal clock automatically changes the date. With the manual option, you can advance the date when processing mail for a later delivery.

Manage rate changes with ease.
SmartLink™ technology automates postage rate changes directly into your connected device, so your rates are always up to date.

Large-platform, heavy-duty 5kg scale handles bulky items and parcels

SmartLink™ connectivity

Easy postage refill

Fast, accurate processing (up to 40 pieces per minute)[1]

Semi—automatic envelope feed and postage printing

[1] Speed varies dependent on model.
