## Introducing the next generation of sending solutions from Pitney Bowes: SendPro<sup>®</sup> C Auto

The essential tool for any business that wants painless mail processing.

Sending letters and parcels is made simple with our all-in-one practical solution featuring automatic feeder and intuitive touchscreen interface. Bringing productivity to mail preparation time as you seal and frank your envelopes at the same time.

SendPro C Auto provides a more streamlined way to process bulk mail and ship parcels. It makes understanding and realising greater cost and time savings easy. By leveraging cloud technology, our innovative device delivers high value and convenience through easy-to-use features and services.

## Get the functionality you want, combined with the full support you deserve.

### Designed to minimise downtime:

Daily tasks are easy for everyone, thanks to our bright, user-friendly colour touchscreen. And it's so simple to operate. Get started right away with our integrated support articles and self-help videos.

### Intuitive workflow:

You'll be amazed at how it all makes such perfect sense. A few taps of the sharp 7" colour touchscreen and you're on your way. You'll be done before you know it.

### Eliminate wait times for support:

No need to call in for support. Get the help you need instantly from our easy-to-use website.

- Get support with live chat.
- Order supplies.
- View self-help articles and videos.

There's also helpful assistance built into the machine through the intuitive touchscreen notifications as well as our how-to guides.

# SendPro<sup>®</sup> C Auto

Handle bulk mail processing quickly and easily.

Integrated 7 kg scale

## Key benefits of the SendPro C Auto

### Easy to use

- Easy-to-use, 7" colour touchscreen for simple operation.
- Print up to 120 letters per minute thanks to the automatic feeder.
- Intuitive menus make for easy selection and completion of jobs quick and accurate.
- Advanced support options such as Notifications, online help articles and how-to videos.
- Apply postage to larger envelopes and parcels easily with the included strip tape dispenser.
- Smoothly feed your mail with our reverse separation technology.

### Get – and stay – in control

- Refill postage online in seconds.
- Track your departmental spending and available credit balance easily.
- Receive automatic rate updates.
- Check your wireless connection strength.
- View ink status.

### Ideal for any office

- Speed up your mailing workflow and prevent costly misprints with presets.
- Quiet performance.
- Eliminate trips to the post office.

### Simplify and save

- An all-in-one sending solution for mail.
- Enjoy discounts across a range of postal services.
- See all available service options and pricing on one easy-to-read screen.
- Increased visibility into spending through postage reports.

### Reliability meets simplicity

- Rely on SendPro C Auto when running batches and during peak periods.
- Integrate seamlessly into your existing operation. It's designed to make the mailing process easier for users of any level.
