

# Pitney Bowes Smart Access Management™ (SAM)

Powered by VisitorRego.

Delivering assurance.  
Inspiring confidence.

## Why go digital for your workplace access management?

### Hybrid working is here to stay

**83%** of businesses expect a hybrid mix of in-office and working from home to remain for the foreseeable future

### Data privacy is a human right

In 2021 The Office of the Australian Information Commissioner received

**910**

data breach notifications

### Ensuring Health & Safety at work is a primary concern

**38.8 million**

working days lost due to work-related illness and workplace injury in 2021

### Adhering to Government 'Right to Work' requirements

Failure to check an employee's right to work in Australia carries a minimum fine of

**\$18,900**

**Contractors must be risk assessed**

Businesses are re-evaluating how they can manage their workplace entry systems to find smarter, more intelligent and intuitive ways to manage the physical and virtual needs of their workplace.

Pitney Bowes Smart Access Management™ promises to tackle these challenges face-on with your digital concierge, SAM.

### SAM simplifies

Protection for your people and premises

Data privacy & compliance

### SAM supports

Intelligent technology

A welcoming environment
