Air Purifiers

# Cleaner air for cleaner working environments.

## AirTek Pro 1500 by Pitney Bowes.

Pitney Bowes understands that clean air has become a valuable commodity in the modern world. That's why we have released our superior-grade air purifier technology solutions to more working environments. The AirTek Pro 1500 air purification system removes 99.9 per cent of airborne viruses – including the likes of H1N1

and Coronavirus, bacteria, and other pollutants, making it an essential tool to help reduce the risk of contagions in the workplace. The high-performance AirTek Pro 1500 air purifier is highly customisable, letting businesses customise the solution to their exact requirements.

# Superior grade air purifying technology delivering cleaner air in working environments.

The AirTek Pro 1500 is a high-performance air purifier, which can be customised to meet specific business needs and applications.

## AirTek Pro 1500 specifications

Items	Details
Machine size	853*400*390mm
Air volume (CADR)	1512m <sup>3</sup> /h
Sensor	PM2.5 CO <sup>2</sup> Temperature and humidity
WIFI	Yes
Applicable area	90-180m <sup>2</sup>
Shell material	ABS
Certificate	CE-EMC, CE-LVD, ROHS, CADR & Noise, Ozone & UVC Leakage, WIFI, EN1822, Antibacterial filter test report
Sterilisation principle	HEPA H13, UVC Light, Pre-Filter, Antibacterial Filter, Activated Carbon Filter, Photocatalyst, Anion
Sound level	38-66 dBA
Gross weight	28.5kg

Superior grade purifier technology

Virus free filter technology

99.9% bacterial removal rate

0.1um HEPA Filtration

HEPA H13 long hour lifespan filters

Tested by SGS and independent labs

## Features:

- Pre-filters: catch and trap larger and airborne particles. Easy to disassemble and clean.
- HEPA filter: catch and trap bacteria, viruses including the likes of H1N1 and Coronavirus, and smaller airborne particles and pollutants. >99.99% PM2.5 removal rate.
- Activated carbon filters: efficiently and lastingly adsorb harmful gases such as formaldehyde, toluene, odour, and more.
