

OPEX®
Model 72™

Envelope Opener and Contents Extractor

Why Model 72?

The most cost-effective extraction desk device for mail extraction, engineered for high throughput rates with less labour.

Designed with the operator in mind, the Model 72 extraction desk is the perfect blend of ergonomics, ease-of-use and accessibility. The Model 72 extraction desk provides an exceptional increase in measurable operator productivity. This adds up to increased operator satisfaction and more efficient mail opening and extracting.

Features

Specialized cutting technology

Milling cutting uses a smaller cut depth that significantly reduces the potential of cutting contents, which is optimal for a variety of documents including thick and overly filled envelopes. Milling cutting creates a soft, feathered edge which lends itself to additional operator comfort.

Memory verifier unit

A precise measuring device is included to ensure that all envelope contents are truly extracted prior to the envelope being discarded.

Advantages

Secure

Each envelope is jogged to shift contents away from cut edges to keep contents secure and free from damage.

Efficient

The Model 72 extraction desk is designed to improve extraction throughput, while significantly reducing the amount of labour needed.

Specifications

| | |
|--------------------|---|
| Envelope feeding | Friction-based feeder up to 22" of mail |
| Envelope width | 3.5" – 6.38" (8.89 cm -16.21 cm) |
| Envelope length | 5" – 11.5" (12.7 cm x 29.21 cm) |
| Envelope thickness | Up to 0.375" (0.953 cm) |
| Cycle rate | Up to 3,600 mail pieces per hour |
| Top cutter | Milling |

Performance control centre

The Model 72™ extractor features a control centre that can show envelope count and provide a statistical analysis of operator rates and productivity.

Auto-jogger

Each envelope is auto-jogged to shift contents away from both cut edges to achieve a new level of content protection and the ability to handle a wide array of envelopes.

Flexible

A wide variety of envelopes can be opened safely and accurately.

Training

Easy to follow videos and instructor manuals ensure operators are up and running quickly and efficiently.

| | |
|---------------------------|---|
| Dimensions (H x W x D) | 47" x 76" x 41" (119.4 cm x 193 cm x 104.1 cm) |
| Additional features | Verifier Operator LCD Integrated workstation Tray holder |
| Daily duty cycle | Unlimited |
| Popular optional features | Ergonomic desk chair |
