SendPro™ Online

Simplify shipping and save.

SendPro® Online is our easy-to-use digital sending solution that lets you print shipping labels online from any computer, even when working remotely.

Choose the best carrier rates.

Never leave your home or office to send out parcels and packages. Our quick and simple interface lets you print shipping labels in a few simple clicks. With a SendPro Basic subscription, you will have access to Canada Post shipping discounts. Best of all, with a SendPro Multi-carrier subscription you will be able to compare rates and send with your choice of Canada Post, Purolator®, UPS® or FedEx® from one interface. By upgrading your account, you can unlock UPS savings up to 68%* on daily rates.

Streamline the way you send.

SendPro® Online consolidates shipping information for multiple carriers in one site, to standardize and simplify shipping. With one address book, all your contacts can be easily uploaded and used for each carrier. That means you won't need to reenter addresses for each recipient.

*Discounts off UPS daily rates. Rates are limited to shipping from Canada only. Rates and any applicable discounts are subject to change at any time without notice.

Weigh packages and print shipping labels with ease.

By integrating cloud-based software with a professional-quality label printer and digital scale, it's easy to weigh, compare shipping options, print trackable labels, track shipments and manage expenses – for all carriers.

Access your existing account information.

SendPro® Online works with different carrier accounts so that you can still gain access to your negotiated rates.

Track every item online and send real-time updates.

Check the status of all your shipments along their routes. With the email notification feature, you can keep both senders and recipients informed by emailing them the tracking numbers of their shipments.

Access SendPro® Online from any PC or Mac.

Users can keep track of shipments from any computer or laptop, whether they're in the office or working remotely.

Control shipping expenses.

Determine the right choice for your sending needs.

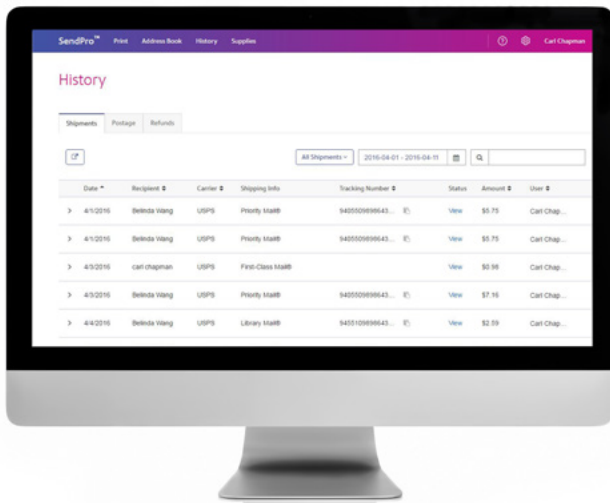

It's simple to process your parcel shipments with SendPro® Online. List out all available delivery services and costs for multiple carriers, so that you have all the information needed to make the best shipping decisions.

Maximize carrier shipping discounts.

SendPro® Online simplifies the preparation of labels and payment of parcel shipping. And best of all, you can view and select available carrier shipping options that help you maximize savings.

Consolidate all of your shipping costs in one report.

SendPro® Online makes it easy to reconcile your shipping expenses. Now, you can see all of your shipments in a single report. There's no time-consuming record keeping because information is collected for you. Since SendPro® Online lets you export files, you can easily upload shipping expenses into common accounting software in order to streamline your invoicing.

Invite users to meet your business needs.

As your business grows, more people are likely involved with shipping processes. It's also possible that they ship from more than one location. With SendPro® Online, you decide who can use the system. This assures greater control and accountability over expenditures. Whenever you need more people to use the solution, you can add them at any time, along with designated sending permissions.

With SendPro® Online, you'll always have an overview of activity and expenses, plus the ability to generate detailed reports by user, client and department.

Select the option that fits your business.
