

Shipping & Mailing

Postage Meters

SendPro® MailCenter 2000

Streamline your sending workflows.

The SendPro MailCenter 2000 simplifies your sending processes by integrating mailing and shipping into a single system and provides a modern user experience making sending anything easy and more streamlined.

With fast automatic-feeding, you can quickly process high volumes of mail, easily ship through Canada Post, UPS®, FedEx® and Purolator and track packages all from one reliable system, improving productivity and creating new levels of efficiency for your organization.

For letter mail, the MailCenter 2000 will seal and print postage at up to 180 letters per minute and can handle mail at up to 5/8 of an inch thick.

Sorting mixed sized mail is no longer necessary with the Weigh-on-the-Way® feature. The MailCenter 2000 increases productivity by weighing each piece of mail and applying the correct postage as it travels through the machine at up to 115 letters per minute.

- Minimizes downtimes and jamming with reverse separation feeding technology.
- Automatically save on every piece of mail you send and gain access to additional savings, such as presort rates.

For more information, visit us online: pitneybowes.com/ca/en

For overnight deliveries and package shipments, the available shipping functionality allows you to compare services for Canada Post, UPS®, FedEx® and Purolator so your packages are sent with the best cost and delivery option available. You will also gain complete visibility into your shipping history, package tracking and carrier spend, all in one place.

- Access special discounts with Canada Post and UPS or use your existing business accounts
- Accurately weigh packages and print professional looking labels right from the integrated scale and connected shipping label printer

Intuitive user display

The 15" modern, colour touch screen display on the SendPro® MailCenter 2000 simplifies the way users process each job and interact with the system. Users can benefit from easy-to-follow menus for the streamlined processing of mail and packages.

Flexible printing

Save on pre-printed stationary costs and increase open rates for your mail. The SendPro MailCenter allows you to print your business logo, return addresses, promotional messages, or graphics directly onto your outbound envelopes at the same time it prints postage for a more professional look.

Available desktop shipping

The SendPro MailCenter 2000 enables users outside the mail area to ship packages from their individual PCs with PitneyShip® Pro, our online multicarrier shipping software powered by the Shipping 360™ platform. Users can access the same shipping capabilities on the MailCenter at their desk to send or track a package delivery.
