

Big efficiency in a compact size.

DM300C Digital Mailing System

Your ability to send customer communications accurately and on time is important. Make it happen with the Pitney Bowes DM300C. It simplifies the processing of different types of mail. Plus, it helps insure that each piece has the correct postage and gets out on time.

As compact as it is capable, the DM300C combines a semi-automatic feeder, envelope sealer and integrated scale with easy to use controls. The result is big system capabilities in a

space-saving footprint that fits seamlessly into most any office environment.

- Stream-feed letter mail at up to 65 letters per minute
- Feed and seal envelopes up to 3/8" thick and flats as large as 13" x 15"
- Manage package shipments with optional SendPro™ shipping application and Send Kit.

Maximize time by streamlining processes.

With the DM300C Digital Mailing System, you can process routine mailings and time-sensitive projects quickly and accurately. Save time and effort by:

- Getting postage refills and Canada Post rate updates in seconds with a fast, internet connection.
- Tracking package delivery from drop-off to receipt and get delivery signatures for your most important mail and packages with SendPro™ shipping.
- Controlling access to postage funds and allowing you to see how much is spent by department, cost centre or by job.
- Turning hardcopy tracking and accounting records into digital data, which you can retrieve for exactly when you need it.

Flexible and powerful.

With the controls you need to effectively manage your operations, the DM300C enables your team to get each job done quickly. Its flexible features improve and simplify essential processes including:

- Adding text and graphical messages to mail to highlight a promotion or urgent message.
- Printing multiple tapes (up to 50 at a time) for batches of larger items.
- Storing up to 10 routine jobs for quicker handling and greater productivity.
- Comparing classes of mail to optimize cost and service.
- Maintaining password security and postage alerts provide the you the assurances you need

Simplify shipping with SendPro.

Now, you can process and manage your shipping all in one place with SendPro. Our online solution simplifies the shipping process, giving you access to ship with Canada Post, FedEx® or UPS® all from a single user interface. You can evaluate rates and services, then easily and costeffectively send packages.

Plus, the optional integrated scale and label printer allows your office staff to weigh, rate and print professional shipping labels right from their desktop PCs. No matter how many people in your office ship, equip them with SendPro. They'll have powerful desktop capabilities that link to a central, controlled account that captures shipping history, carrier spend and package tracking details for all three carriers.
