Achieve faster efficiencies.

The DM400c™ accommodates and processes a variety of mail sizes without the need for operator assistance. Automatic feeders load your mail and extended rollers feed it more consistently than gravity fed systems. It even outperforms hand-fed systems. The DM400c is so efficient even inexperienced operators can manage daily mail quickly and accurately.

Standard operating features

Auto-dating, low postage alert, high value protection, original value resetting, seal only and no seal modes, low ink alert, password security, envelope graphics, postal inscriptions, and dual language support (English, French).

Options:

- DM Series Analyics
- Laser report printer
- Differential weighing
- Barcode scanner
- Incentive Lettermail Rates

Simplify shipping with SendPro®.

Now, you can process and manage your shipping all with SendPro. Our online solution simplifies the shipping process, giving you access to Canada Post, FedEx® or UPS® all from a single user interface. Evaluate rates and services, then easily and cost-effectively send packages. Plus, the optional integrated scale and label printer allows your office staff to weigh, rate and print professional shipping labels right from their desktop PCs.

No matter how many people in your office ship, equip them with SendPro. They'll have powerful desktop capabilities that link to a central, controlled account that captures shipping history, carrier spend and package tracking details for all three carriers.
