

DM475™ Digital Mailing System

Big capabilities for mid-sized mailrooms

Now, getting your mail-pieces assembled and out the door is virtually effortless with the DM475 from Pitney Bowes. Right-sized for your business, the DM475 provides outstanding in-line weighing, dimensioning and rating to process mixed weight and mixed size mail. It's designed to:

- Automatically weigh and rate mail with the Weigh-on-the-Way® capability
- Handle a variety of materials (up to 5/16" thick) and sizes (ranging from postcards to 13"x 15" flats)
- Easily weigh and rate larger items with the space-saving, integrated scale

With capabilities of a larger mailing system, the DM475 represents the ideal solution for the mid-size mailroom that has occasional large mailings that require higher speeds. It's simple to operate, yet packed with advanced technology,

- Automatic feeding at up to 120 LPM
- Integrated weighing
- Seal envelopes automatically
- Built-in tape dispenser

Eliminate time-consuming preparation steps.

The DM475™ minimizes the time it takes to process daily mail as it eliminates the need to sort mail by weight and size before processing. Weigh-on-the-Way®, a Pitney Bowes innovation, enables more precise and accurate processing.

Designed for simplicity

The DM475 gives any operator clear, step-by-step instructions for sending mail. Selections are quick and easy through a user friendly, colour graphics display.

Connect to real savings.

With the DM475, you're connected 24/7. There's no need to move the mailing system or to install a costly phone line to download postage and update software. Simply connect to your LAN for fast and convenient access.

Standard operating features

- Auto-dating
- Low postage alert
- High-value protection
- Original value resetting
- Seal only and no seal modes
- Low ink alert
- Password security
- Envelope graphics
- Postal inscriptions
- Dual language support (English, Spanish)

Simplify shipping with SendPro™.

Now, you can process and manage your shipping all in one place with SendPro. Our online solution simplifies the shipping process, giving you access to ship with Canada Post, FedEx® or UPS® all from a single user interface. You can evaluate rates and services, then easily and cost-effectively send packages.

Plus, the optional integrated scale and label printer allows your office staff to weigh, rate and print professional shipping labels right from their desktop PCs. No matter how many people in your office ship, equip them with SendPro. They'll have powerful desktop capabilities that link to a central, controlled account that captures shipping history, carrier spend and package tracking details for all three carriers.
