PitneyShip®

PitneyShip: The next-generation solution for your business shipping needs.

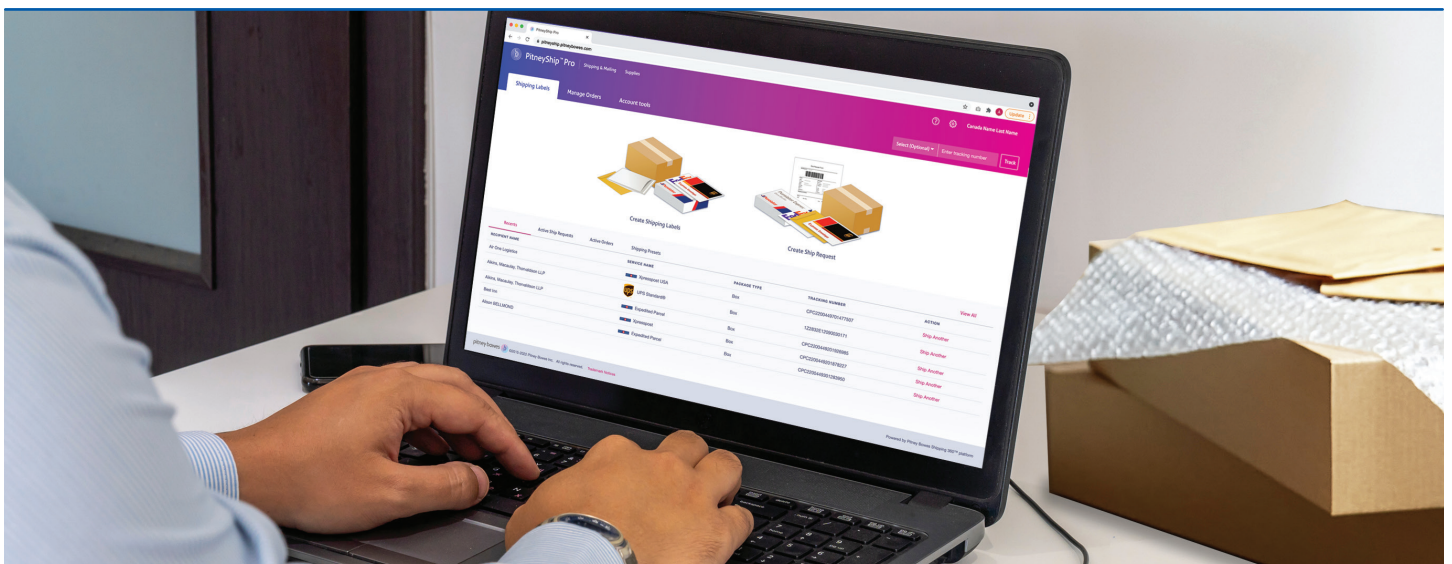

Improve management of your day-to-day sending operations.

Your business keeps evolving, especially with a hybrid workforce. Sending patterns fluctuate. Carrier fees increase. Now there's a comprehensive tool that adapts to your changing shipping needs. Our easy-to-use, cloud-based solution simplifies every aspect of shipping, from printing labels to preparing customs forms for sending packages anywhere in the world.

Built for the way you do business today and tomorrow, PitneyShip puts all the capabilities you need at your fingertips, enabling smarter decisions while providing enterprise-wide visibility and control.

All your shipping tools in one convenient interface

- Rate shop multiple carriers and delivery times
- Print carrier shipping labels
- Share negotiated carrier rates between multiple locations
- Generate customs forms for international shipping

For more information, visit pitneybowes.com/ca/en or call 1-800-672-6937

The flexible sending solution designed for your business.

PitneyShip®, the first shipping and mailing solution powered by the Pitney Bowes Shipping 360™ platform, enables an efficient, seamless experience no matter where you're sending from. Our cloud technology, with a robust data security architecture, easily adapts as your sending needs evolve and brings a new level of consistency, control and oversight to every user across multiple locations. Change management is a breeze: simply add or remove users or locations as needed, without waiting for IT support.

Ship smarter in every way possible.

Shop for the best rates (including your previously negotiated rates) from multiple carriers such as Canada Post, Purolator, UPS® and FedEx®. PitneyShip gathers all accessorial fees, so there are no surprises when the invoice arrives. Send packages and mail from multiple locations.

Streamline your workflow.

An intuitive interface provides a new level of convenience and ease of use. The simple look and feel helps users get up to speed quickly without the need for training.

Control costs.

PitneyShip centralizes information for better visibility, so it's easy to allocate expenses to the correct cost center or client account. Permissions-based workflows simplify cost management by assigning rules and spending limits to individuals or entire departments. Real-time data and analytics let you analyze spending by account, department, location or carrier, providing insights to save you time and money.

Next-generation technology for your shipping needs, today and tomorrow.

- Cloud-based and accessible any time, from anywhere
- Easily add users, locations and services as your needs change
- Carrier rate shopping tool in list or calendar view
