SendPro™

Simplify shipping and save.

Introducing SendPro, the online shipping solution that simplifies the way your office sends parcels through Canada Post and other major carriers. By integrating cloud-based software with a professional-quality label printer and digital scale, it's easy to weigh, compare shipping options, track shipments and manage expenses—for all carriers. And best of all, it gives you access to Canada Post shipping discounts.

Streamline the way you send.

SendPro consolidates shipping information for multiple carriers in one site, to standardize and simplify shipping. With one address book, all your contacts can be easily uploaded and used for each carrier. That means you won't need to reenter addresses for each recipient.

Weigh packages and print shipping labels with ease.

With the integrated scale and printer, anyone can send packages right from their PC. Accurately weigh packages with the scale and print professional looking shipping labels right from the integrated label printer.

Access your existing account information.

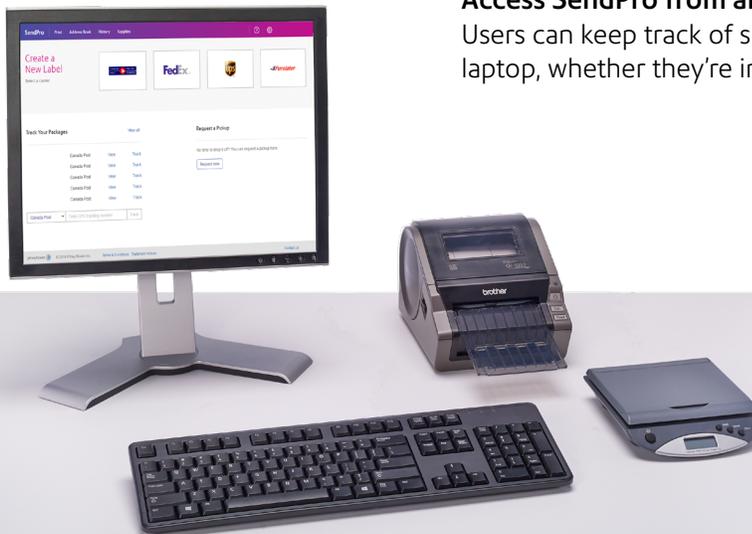

SendPro works with different carrier accounts so that you can still gain access to your negotiated rates.

Track every item online and send real time updates.

Check the status of all your shipments along their routes. With the email notification feature, you can keep both senders and recipients informed by emailing them the tracking numbers of their shipments.

Access SendPro from any PC or Mac.

Users can keep track of shipments from any computer or laptop, whether they're in the office or working remotely.

Control shipping expenses.

Determine the right choice for your sending needs.

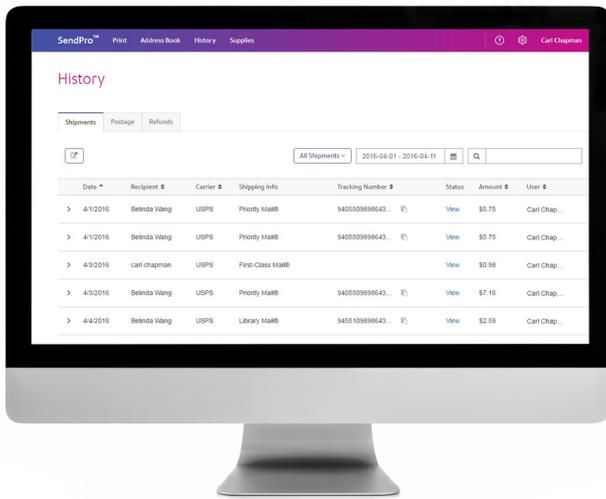

It's simple to process your parcel shipments with SendPro™. SendPro lists out all available delivery services and costs for multiple carriers, so that you have all the information needed to make the best shipping decisions.

Maximize carrier shipping discounts.

SendPro simplifies the preparation of labels and payment of parcel shipping. And best of all, you can view and select available carrier shipping options that help you maximize savings.

Consolidate all of your shipping costs in one report.

SendPro makes it easy to reconcile your shipping expenses. Now, you can see all of your shipments in a single report. There's no time-consuming record keeping because information is collected for you. Since SendPro lets you export files, you can easily upload shipping expenses into common accounting software in order to streamline your invoicing.

Invite users to meet your business needs.

As your business grows, more people are likely involved with shipping processes. It's also possible that they ship from more than one location. With SendPro, you decide who can use the system. This assures greater control and accountability over expenditures. Whenever you need more people to use the solution, you can add them at any time, along with designated sending permissions.

With SendPro, you'll always have an overview of activity and expenses, plus the ability to generate detailed reports by user, client and department.

Select the option that fits your business.
