Outbound and Inbound Package Management

SendSuite® Tracking Online

Simplify your inbound package management.

Save time and money by increasing the efficiency of your receiving process.

SendSuite Tracking Online is a cloud-based solution that streamlines the logging, tracking and managing of incoming packages and important mail. You'll gain better visibility on what comes into your organization and where it goes.

SendSuite Tracking Online defines new standards for precision and accuracy, helping customers like you meet the demands of today's complex and interconnected world of commerce.

Gain a comprehensive view of your receiving process including:

- What you received
- What time it was received
- Identity of both sender and intended recipient
- Current status within your organization
- Exact time of delivery to the intended recipient

Just scan the barcode on a package or piece of mail. From that point until it's received by someone in your organization, everything you need to know is right at your fingertips. No special training is required. Real-time email/chat/phone support options are available.
