

DM175i™ Digital Mailing System

Designed with flexibility in mind, the DM175i™, powered by Pitney Bowes' IntelliLink™ technology represents the ultimate answer to the mailing needs of busy businesses. The latest digital technology makes processing mail quiet and efficient - the perfect office companion.

DM175i™ Digital Mailing System

✦ Future-proof mailing

IntelliLink™ connects Pitney Bowes' DM175i™ to a secure server, via the Internet, enabling services such as postal tariff changes, software updates and advertising slogans to be downloaded quickly and effortlessly.

✦ Targeted and effective mailing

Print a return address alongside your customised slogan to ensure undelivered mail is returned thus improving the accuracy of your mailing database and ultimately reducing expenditure on subsequent mail shots.

✦ Correct value postage – every letter, every time

The DM175i™ incorporates a 5kg integral weighing platform, freeing up desk space and guaranteeing that each letter or package bears the correct postage value. Differential weighing technology enables batches of mixed mail to be processed quickly and efficiently.

✦ Fast, accurate postage re-crediting

Replenish your meter 24-hours a day with simple one-touch refills via **POSTAGE BY PHONE** – quick, secure and hassle-free. Get up to 55 days free credit with **PurchasePower** post now, pay later facility.

» Easy to use

All controls are fully integrated on one clear control panel with user-friendly instructions to guide the operator through each stage of processing mail.

» Streamlined processing

Efficiently frank and seal mail pieces up to 9.5mm thick, whilst larger mail is quickly processed with self adhesive tape strips. Mailing couldn't be simpler with up to 5 presets for your most commonly used jobs.

» Monitor postal spend

Control postage costs with tracking and reporting for up to 100 named departmental or client accounts.

» Strengthen your brand

Enhance and build your corporate identity by transforming standard envelopes into eye-catching branded mail pieces.

✦ Track incoming mail

Date and time stamping incoming post ensures mail is handled efficiently.
