Connect+® 2000

Have the right tools ready for your staff.

Control costs and help drive revenue.

Your mail centre is a hub of business activity. How you equip your business has direct consequences to your costs and revenue.
The Connect+ 2000 mailing system is designed to meet the demands of your busy mail centre. It helps to maximize time and has the versatility you need to process mail of all different sizes. This powerful system minimises guesswork as well as the tedious and time-consuming efforts that make a significant, negative impact on your organisation's resources.

Streamline workflow with the Connect+ 2000 mailing system.

The Connect+ 2000 frees your staff from many of the manual efforts required to process mail. With the Weigh-on-the-Way® (WOW®), you can process mixed weight and mixed size mail automatically. For billings or statements in like-sized envelopes, the Connect+ 2000 operates at a fast 180 letters per minute, enabling you to handle heavier volumes on your busiest days.

The Connect+ 2000

- Processes mail up to 16mm thick for both portrait and landscape mail
- Seals and prints postage on like-size mail at up to 180 letters per minute
- Weighs and rates variable sized mail at up to 110 letters per minute
- Prints downloaded graphics across the top of the envelope with print-shop quality

Gain the flexibility you need.

Weigh-on-the-Way® (WOW®): The Connect+® 2000 mailing system simplifies processing of mixed weight and mixed size mail with automatic weighing and rating. That keeps it simple for you as you no longer need to calculate or guess on postage. It does it for you.
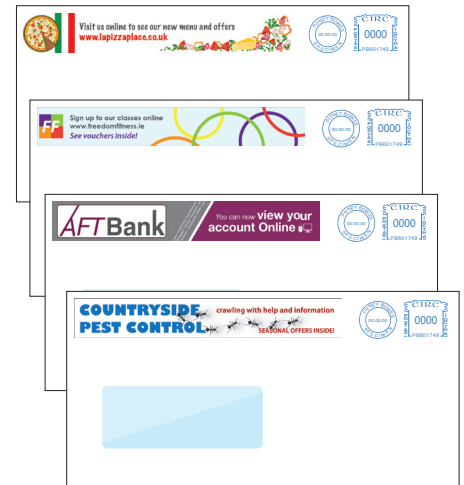

Intuitive interface: Postal rules can be complicated and are often misunderstood. The Connect+ 2000 mailing system guides your operators with its easy-to-follow menu on the colour touch screen. This speeds up the weighing and rating of larger and heavier mail pieces that cannot be fed automatically.

Manage finances: The Connect+ 2000 makes it easy to track postage by helping you manage your postage purchases and expense allocations by department or by job.

Go beyond printing postage to save costs and drive revenue.

Colour printing flexibility: With the Connect+ 2000 mailing system, you're in control. Choose what colour to print a return address, business logo or promotional message on your envelopes. Print just one or print a thousand. The savings add up as this enables quick changeover that eliminates expensive, special order printing.
