

Connect+[®] 3000

Set expectations for performance.

Make critical gains in productivity and efficiency.

Your operation depends on meeting critical deadlines for sending billings, statements and customer communications.

The Connect+ 3000 is a fast, robust solution that can handle the heavy demands of busy mail centres and production operations. By producing over 15,000 envelopes per hour, it is one of the fastest tabletop mailing system on the market. The Connect+ 3000 mailing system can easily meet your high demands and gives you more features and flexibility than you thought imaginable.

Meet more challenges with the Connect+ 3000.

The Connect+ 3000 mailing system is designed with durable components that enable you to continuously feed like-sized mail at high speeds and process variable weight mail by automatically weighing and measuring each piece to correctly apply postage. It's built to take on the challenges of your long mail runs and unexpected jobs on your busiest days.

The Connect+ 3000

- Processes mail up to 19mm thick in both portrait and landscape mail
- Seals and prints postage on like-size mail at up to 310 letters per minute
- Weighs and rates variable sized mail at up to 205 letters per minute
- Prints downloaded graphics across the top of the envelope with print-shop quality

Gain the flexibility you need.

Weigh-on-the-Way® (WOW®):

The Connect+® 3000 mailing system simplifies processing of mixed weight and mixed size mail with automatic weighing and rating. This eliminates pre-sorting of mail by size and thickness to help speed up the operation.

Intuitive interface: Postal rules can be complicated and are often misunderstood. The Connect+ 3000 mailing system guides your operators with its easy-to-follow menu on the colour touch screen. This speeds up the weighing and rating of larger and heavier mail pieces that cannot be fed automatically.

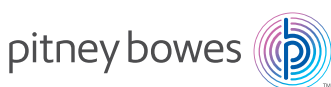

Manage finances: The Connect+ 3000 makes it easy to track postage by helping you manage your postage purchases and expense allocations by department or by job.

Go beyond printing postage to save costs and drive revenue.

Colour printing flexibility: With the Connect+ 3000 mailing system, you're in control. Choose what colour to print a return address, business logo or promotional message on your envelopes. Print just one or print a thousand. The savings add up as this enables quick changeover that eliminates expensive, special order printing.
