

# Full data security.

Erasing data is fast and easy with our range of degaussers.

## It's your data, not someone else's.

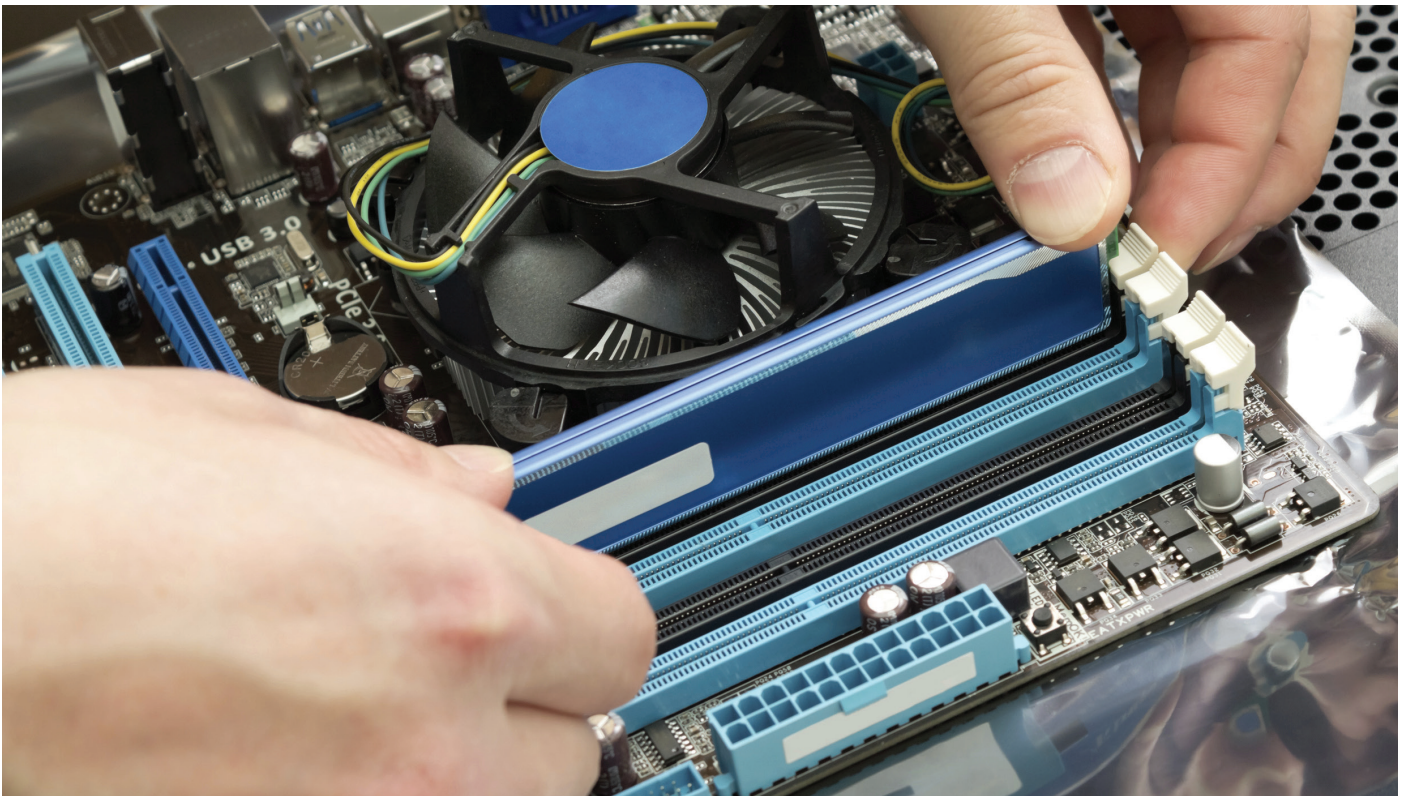

Data is of vital importance to your organisation. Data retrieved from dismantled, mangled or previously thought destroyed hard drives can compromise the security of your entire operation. That's a risk not worth taking. To insure that security is not compromised, you need to protect your data, even after you've:

- Transferred data from one hardware source to another
- Upgraded old hardware
- Destroyed old hardware
- Erased data that is outdated or no longer in use

## Top security in any environment.

Pitney Bowes, in association with world leader Intimus® and Beijing Heshengda Information Security Technology Co. Ltd. (HSD) delivers the Range of degaussers. Now, you can erase data permanently and irrevocably in a matter of seconds. Efficient and flexible, these degaussers fit the needs of any industry, including:

- Banking
- Financial services
- Insurance
- Telecom
- Government
- Ewaste Recyclers
- Defence

---

## What is Degaussing?

Degaussing in simple term means erasing information from a magnetic disk or a storage device. In other words, it is elimination of the magnetic field in the hard disc to remove the data. A degausser can completely erase all audio video and data signals from magnetic storage media. A degausser must have appropriate strength to degauss an HDD. \*These products are proprietary to Intimus and HSD in India and distributed solely by Pitney Bowes.

---

## The highest levels of security, simplified.

### Intimus 8000 Desktop Degausser

Sleek, smart design allows the 8000 to fit seamlessly into your office environment. It provides fast and safe degaussing for:

- Tape cartridges including DLT, LTO and QIC
- HDD up to 25mm

### Intimus 9000 Professional Degausser

For bigger jobs, take it to the next level while still getting world-class efficiency and superior performance.

- Tape cartridges including DLT, LTO and QIC
- HDD up to 42mm
- CESC Certified

### Intimus 20000 Auditor Pro

Why intimus 20000 Auditor-Pro:

- NSA (NSA/CSS EPL-912A-E) approved
- NATO listed
- Clean and quiet solution to sanitize magnetic media
- Single Pass Pulse Technology
- Drawer Feeding Solution
- Information Display
- Internal Verification of Magnetic Field
- Integrated Handles

### Intimus 1000 HDD crusher

If you require superior devastating power, the Intimus 1000 provides it.

- Physical destruction
- Bends, breaks and mangles components of HDD as it ensures the safety your data.

### HSD Mini Compact Degausser

- Economical degaussing device.
- Compact design for desktop use.
- Built-in detectors for voltage.
- Shielded, harmless to human and other magnetic devices.

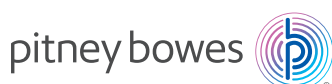

### HSD SuperEx

- Capacitive discharge continuous work degausser, continuous work 8 hours one time.
- Convenient control with a LCD display
- Computer software management interface
- Software and printer(execute and record ) management
- Enough big drawer to hold kinds of HDD
- Compulsory discharge button can clear remaining electricity inside, guarantee the safety.

---

**The Degausser Range is registered and available on Government eMarketplace (GeM) at <https://gem.gov.in>. Please refer to [pitneybowes.com/in](https://pitneybowes.com/in), or call us at 1800 110198, or email us at: [india.marketing@pb.com](mailto:india.marketing@pb.com) for enquiries.**
