The DM100™ Desktop Mailing System provides so much more!

The DM100™ Desktop Mailing System is the first in this new series of lower volume, higher capability mail systems.

Small footprint saves space

Its compact, innovative, and sleek design fits into even the smallest of offices. The integrated scale sits on top of the DM100™ to minimise the footprint.

Operates quietly

The DM100™ is so quiet that it won't detract from your office environment.

Saves you valuable time

Replenish your postage 24/7 with a single key touch using our system.

Handles large letters, parcels and satchels too

Efficiently process mail pieces up to 9.5mm thick. Larger mail, parcels and satchels are quickly processed with self adhesive tape strips.

Auto-dating eliminates returned mail due to misdating

An internal clock advances the date automatically. Operators can also advance the date to get a jump on processing tomorrow's mail.

IntelliLink® ... simplicity that leads to greater efficiencies

You'll learn to use the DM100™ in only minutes. The convenient control panel has dedicated labelled keys for faster processing.

Digital technology is a gateway to the future

Its digital meter indicia satisfies all current postal regulations and the technology's flexibility makes the DM100™ adaptable for the future.

Accounting capability

Today, it's crucial for businesses to account for postage expenses. With the DM100™ you can track up to 10 accounts.
