Delivering assurance.
Inspiring confidence.

Why go digital for your workplace access management?

Hybrid working is here to stay

83% of firms expect a hybrid mix of in-office and working from home to remain for the foreseeable future

Data privacy is a human right

The Human Rights Review Tribunal has issued fines up to

\$168,000

for privacy breaches

Ensuring Health & Safety at work is a primary concern

38.8 million

working days lost due to work-related illness and workplace injury in 2021

Adhering to Government 'Right to Work' requirements

Employers that break employment law in NZ face a penalty of up to

\$20,000

Contractors must be risk assessed

Businesses are re-evaluating how they can manage their workplace entry systems to find smarter, more intelligent and intuitive ways to manage the physical and virtual needs of their workplace.

Pitney Bowes Smart Access Management™ promises to tackle these challenges face-on with your digital concierge, SAM.

SAM simplifies

Protection for your people and premises

Data privacy & compliance

SAM supports

Intelligent technology

A welcoming environment
