 **User Group**

making
customer
communications
happen

introduction

The Pitney Bowes User Group was formed in 1988 and has enjoyed a very active membership drawn from many companies employing Pitney Bowes solutions.

The rapid pace of development within the mailing industry makes it increasingly difficult to **keep abreast of technology** and market trends. Talking with your peers in the industry, and **sharing experiences** with them, is one way of ensuring that you remain at the cutting edge.

The User Group **is independent** and is run by a committee elected by the members' to ensure it represents members interests.

The group has become the forum for discussing the increasing complex issues involved in **making customer communications happen** with representation from many vertical markets all using Pitney Bowes solutions.

what you get

The User Group meets two or three times per annum, often incorporating visits to users sites or venues of direct interest to the group's members.

Recent events have included a visit to one of the newest production mail facilities in the UK, a group visit to one of the industry's largest exhibitions and the User Group Annual General Meeting.

You will have the opportunity to meet 'like minded' people who share similar problems and aspirations and have the chance to 'swap notes' and develop new relationships.

We even have fun with all meetings incorporating a social element, with dinner and drinks provided by Pitney Bowes.

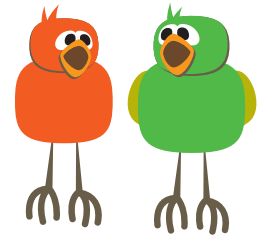

Finally, the User Group is highly respected by Pitney Bowes and has real influence within the industry.

join today

Sign up today to be part of one of the most active and respected user groups within the mail communications industry.

Membership is only **£125 per annum** for two people from the same company.

members views

“The Pitney Bowes User Group has been invaluable in assisting me to develop the very best solutions for my companies mailing requirements.”

“Great, I really enjoy User Group events and have met some extremely useful contacts.”

“The User Group provides a super opportunity to swap ideas and learn a few more ‘tricks of the trade’. Certainly worth £125 a year.”
