

As an integral part of our business strategy Pitney Bowes Ltd commits to prevent pollution, continually improve its overall environmental performance, and that all operations will be performed in compliance with legal and corporate standards.

We will communicate our environmental issues and performance to all interested stakeholders including employees, customers, suppliers, and other interested parties.

This policy statement is available to the public, and will be reviewed annually to ensure alignment with our business activities.

### **Environmental Aims**

- To continually improve the efficiency of our business processes, reducing their environmental impact while enhancing their economic performance;
- To reduce the overall environmental impact of our products and services to meet our customer expectations;
- To engage employees and suppliers to participate in improving our environmental performance.
