Postage Meters

SendPro® P2000

Have the right tools for your staff.

Control costs and help drive revenue.

Your mail centre is a hub of business activity. How you equip your business has direct consequences to your costs and revenue. The SendPro P2000 mailing system is designed to meet the demands of your busy mail centre. It simplifies and integrates mailing into a single system providing a more streamlined way to send letter mail and large envelopes. With sending costs rising and becoming more complex, the P2000 can also quickly improve productivity and cost efficiency in your office.

Streamline workflow.

The SendPro P2000 mailing system guides your operators with its easy-to-follow menu on the colour touch screen, so that anyone in your organisation can operate it. For letter mail, the SendPro 2000 will seal and print postage for mail up to 16mm thick at up to 180 letters per minute.

With the Weigh-on-the-Way® and Dimensions-on-the-Way® (DOW), sorting mixed size mail is no longer necessary. The P2000 can process a stack of mixed size mail at up to 110 letters per minute applying the correct postage for each piece.

Intuitive user display

The modern, colour touch screen display of the P2000 enables anyone in your office to pick the ideal service and complete each job quickly and accurately. The system guides the user with its easy-to-follow menus for processing mail.

Flexible printing

The P2000 also gives you unique control over envelope printing. From any desktop PC, you can upload your graphics to print a business logo, return address, or promotional message in full colour on outbound envelopes. Print just one or print a thousand. The savings add up. Its quick changeover gives you printing flexibility and can eliminate the premiums you pay for last minute changes and special envelope stock.

This Pitney Bowes product is Mailmark® compliant. Pitney Bowes customers have access to all the numerous features and benefits that Mailmark can offer. For more information, visit pitneybowes.com/uk/unlock-value.
