Productivity Solution

PowerGuard™

Superior surge protection and power stability

Unstable power, fluctuations and surges can destroy your workflow.

Small power disturbances affect your operations as much as catastrophes. In fact, your office equipment can experience over 60 disturbances per month, over 80% of which originate from within buildings like yours.

For more information, visit us online: pitneybowes.com

Avoid power disturbances and improve operational efficiency.

Ideal for mail insertion solutions including Relay® inserter system, Connect+® mailing system and SendPro® mailing system, PowerGuard™ will help you:

- Monitor and protect your system without user intervention.
- Reduce service calls.
- Eliminate downtime caused by equipment failure.

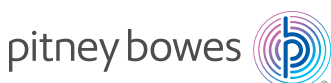

Your protection is guaranteed.

PowerGuard protects your mail solution investment. If your equipment ever fails, we will provide professional onsite restoration and replacement.
