We'll keep you performing at your best.

Be the first to know.
When new updates and upgrades to MapInfo Pro become available, you'll be notified immediately. There's no need to repurchase or replace. As a subscriber, you'll simply download and install the latest versions.

Drive the future of GIS.
Receive all the latest updates and play a key role in their design. Be a Beta user. Make your needs and ideas heard. By collaborating with subscribers like you, we bring user inspiration to life.

Cash in on the extras.
With Subscription and Support, your licensed users will have unlimited access to worldwide Bing maps and imagery. They'll also be entitled to credits toward drive-time and geocoding data. That's a benefit that adds up.
Put our technical support experts on call.

Subscription and Support provides access to technical support staff during business hours, wherever you may be. You’ll benefit from:
• Advice on implementation, optimization and troubleshooting
• Online Case Management System (OCMS) for logging and tracking support issues
• Rapid issue resolution by professionals highly experienced in the use and operation of Pitney Bowes software applications
• Online access to the Pitney Bowes knowledge base, product documentation and other resources

“Put our technical support experts on call.”

Subscription and Support subscribers get unlimited access to worldwide Bing maps and imagery.

Identify relationships, patterns and trends faster using Bing maps as contextual background for your own business layers. Your subscription comes with unlimited access to:
• Bing Aerial maps: Overlay satellite imagery onto your maps, and highlight roads and major landmarks for easy identification amongst the satellite images.
• Bing Hybrid maps: Add worldwide orthographic aerial and satellite imagery with roads and labels overlaid.

Plot precise locations instantly with drivetime and geocoding credits.

Subscription and Support gives you 2,000 drive-time and geocoding credits per MapInfo Pro software user each month.

Use your credits to access these services right from your MapInfo Pro software via the Pitney Bowes Commerce Cloud. Calculate drivetimes or geocode a table of addresses or places across more than 250 countries, then display on your maps.

Use Bing maps as a background: In this example, layers from Pitney Bowes StreetPro® are overlaid on the Bing Aerial map.
