Postage Management

Purchase Power®

# Simplify how you pay for postage.

## Mail now and pay later.

If your meter or permit postage accounts run low, your mail can be delayed—and that's not good for business. Eliminate the hassle of scrambling to send in a check. Now, you can pay for postage the same way you pay for most other business expenses, after you receive a bill. In addition to gaining more convenience, you'll receive better reporting, greater flexibility and money-saving rewards, too.

### **Benefit from a faster, easier way to pay for postage.**

You can instantly add postage to meter or pay for postage on your permits and mail house accounts—with no prepayment required.

Simply refill postage meters, replenish permit accounts and authorize mailings at your local mail house. You can even add mailing supplies, meter rental charges and other mailstream expenses to the same account.

### **Improve your cash flow.**

No prepayment means you can hold onto your funds longer. After you mail, you'll receive an itemized statement that details all of your mailstream purchases for that month. Then, pay with a single check.

Plus, you can choose to pay in full by the due date shown, or take advantage of flexible payment options to pay over time.
