Pitney Bowes Global Services

Professional installation and set-up

Get full support for your SendPro® C-Series.

Pitney Bowes Global Services is committed to helping our clients get the most value from their investment. We'll start by scheduling a trained representative to handle the set-up, installation and operator training for your new SendPro C-Series. With our support, you can fully benefit from everything our innovative solution has to offer right away.

Leverage our comprehensive knowledge and support.

With decades of experience, our field technicians go beyond installing and setting up your equipment. We take a proactive and personalized approach to help you:

- Transfer postage from any replaced system.
- Establish your WiFi or LAN network connections.
- Set your preferred default settings.
- Test your system so you can print postage and ship packages with your preferred carrier.
- Disconnect and package your replaced system for quick and easy return.

Maximize savings through hands-on training.

We'll make sure your employees are comfortable accessing the most critical features of SendPro® C-Series. With the proper guidance, you can also save costs with the Postal Service and alternate carriers. Plus, we can show you best practices to help improve efficiency. Our onsite training will teach you and your staff how to:

- **Send letters:** Weigh, seal and print postage for letter mail and use USPS® service options to meet your unique delivery needs.
- **Send packages:** Select the best delivery service available through USPS or your preferred carrier. Weigh packages, store your address lists and print carrier compliant shipping labels.
- **Track packages:** Track packages and all your shipping costs in one place through the consolidated reporting capability.
- **Maximize savings:** Save more with every effort by realizing today's best practices for mailers and shippers such as selecting from optional delivery times, carrier services or packaging alternatives.
