Step 3: Begin the [online grant application process](#).

- You will be asked to log in. Click on “New Applicant” if this is the first time your organization is applying for a grant. *[Note: We recommend one account per charity using a shared e-mail account (e.g., development@charityname.org) so that applications and history can be maintained through staffing transitions.]*
- Select the size range for your grant and provide your organization’s U.S. Federal Tax ID Number (EIN) or NCES ID Number. If the number matches a qualified organization in the IRS / NCES database, you will then be asked to answer questions regarding your organization, the program / project you are requesting funding for, your organization’s religious status, and the geographic scope that the program/project you are seeking funding for will serve.
- Successful responses will bring you to the grant application form for your size grant. A sample grant application follows to help you prepare your grant application.

In fairness to all of our prospective grantees, we do not take calls or meet with new grantees. We encourage you to put your best application forward that aligns with our guidelines and priorities. We look forward to receiving your grant application and wish your organization every success with this highly competitive grant process.
