

## Non explosive HAZMAT containment unit

The HAZMAT box is a simple and cost effective solution designed to enable your business to carry on without needless evacuations.

The weapon of choice for today's criminal, crank or terrorist is **White Powder**. **White Powder**, be it Ricin, Anthrax or Talcum Powder has the effect of spreading fear among workers and usually means evacuation. This of course will mean mass disruption to an organisation and can have a worrying effect on staff.

**The HAZMAT Containment Unit** is a simple idea and is relatively foolproof. It can save time trying to isolate the air conditioning and any forced air circulation systems. It also reassures staff of the fact that 99.9% of the time, this is just a hoax designed to cause disruption. And quite simply this box prevents that from being the case.

### Features and Benefits:

**The HAZMAT Containment Unit** was developed with the assistance of expert in the field of CBRN to:

- Reduce the need for unnecessary evacuation
- Reduce the risk of further contamination
- Increase staff confidence
- Improve moral of operators

The unit is clearly identifiable with

- Bright yellow exterior
- Clear unambiguous signage
- Robust 2mm steel plate
- Easily sealed lid
- Fully lined interior

### Reduce the need for unnecessary evacuation

- Leakage can be contained
- Box can be moved to a non operational area
- Reduce dependency on air isolation

### Clearly defined responsibilities

- Easy to train post room operatives
- Security staff have time to react because of containment
- Simplistic approach from Emergency Service – unit can be removed from workspace

### Employee Confidence

- Staff reassured by unnecessary evacuations
- Better "Safe than Sorry" approach

### Practical Tool

- Completely reusable
- Cheap to replace if contaminated
- Purpose built that is fit for service

### Tested to:

- IEC 68-2-64 (vibration)
- IEC 62-2-29 (bump)
- BS EN 60068-2-32 (freefall drop test)
- BS EN 60529-1992 IP 65 Category (Dust & Water Ingress)

### Internal Measurements

330mm x 330mm x 350mm
