Connect+ 3000[®] Pro mailing system

High performance for production environments

Raise the bar with the Connect+ 3000 Pro

Mail efficiently, effectively and meet the demands of your customers with the Connect+ 3000 Pro. Designed for production environments like yours, the Connect+ 3000 Pro mailing system is among the fastest in the industry and is built to stand up to your tough requirements. It provides all the capabilities you need to help accelerate your business as well as your workflow.

- Production mailing at over 18,000 envelopes per hour
- Precision weighing of mixed thickness envelopes at up to 12,000 envelopes per hour
- Large feed deck allows continuous feeding of small envelopes and flats
- Wide transport safely guides flats in both landscape and portrait modes
- Power stacking options help maintain output sequence and operator productivity

Bonus:
Automatic
30% discount on
postal red ink
cartridges

Mixed mail processing for outstanding productivity.

With Weigh-on-the-Way® (WOW®) and shape based rating functionality, the Connect+ 3000® Pro helps you process your mixed weight and sized material automatically in a single operation. Each piece is weighed, measured and the correct postage is calculated and printed at speeds up to 205 letters per minute.

You're in control of your output.

With the Connect+ 3000 Pro mailing system, it's easy to control the final printed output. Download and choose printable graphics for any mail run such as a return address, business logo or promotional messages. Print just one or print thousands with adjustable positioning. Quick changeover eliminates expensive, special order printing. Return addresses can be automatically left-justified to ensure precise placement.

Integrated color printing for less

With the Connect+ 3000 Pro, print postage, permit and inscriptions for presort mailings. Plus, using the color print module, you can print color graphics in the same pass. The color print option offers 1200 dpi with your choice of black or 4-process color. Reduce envelope printing costs and having to keep envelope stock on hand. This printer does it for you in print-shop quality for less than print-shop pricing.

| Core features | Connect+ 3000 Pro with WOW* |
|---|--|
| Color touch screen display | Standard— 15" display (XGA) with stylus |
