SendSuite® Live Handheld OCR

Automate package processing with one, easy-to-use device.

The need to manually enter address information can slow down any mail center. On busy days, harried staff may even bypass SendSuite Live and meter packages at the higher retail price to save time.

You already have access to the powerful SendSuite Live platform. Now, unlock its full potential.
The SendSuite Live Handheld Optical Character Reader (OCR) is an enterprise-grade label scanner that instantly captures package destination information and then populates address data into SendSuite Live.

No need to manually key in each address. You can automate the process and ensure every package ships at the best rate.

Transform your mail center.
- Process every outbound package through SendSuite Live.
- Eliminate manual re-entry of address information.
- Reduce package processing time by 66%.
- Realize 20-40% savings through USPS® Intelligent Mail® package barcode discounts.
