**Sending and Receiving
Cost Analytics**

Answers to frequently asked questions

SendPro® Analytics

Automatically gain unmatched visibility
and actionable insights on mailing, shipping
and receiving across your organization.

For organizations with multiple offices and multiple sending and receiving devices, getting a handle on expenses and usage from these solutions can be quite cumbersome and time consuming. SendPro® Analytics provides a precise, detailed view into all of your organization's sending, shipping and receiving activity and automatically updates it daily so you can:

- Gain control over spending.
- Budget with accuracy.
- Improve workflow efficiencies.
- Identify volume and cost trends to help you negotiate more favorable carrier rates.
- Discover pockets of saving and methods to save.

Q. What is SendPro Analytics?

SendPro Analytics is a cloud-enabled solution that automatically aggregates data from Pitney Bowes devices across the organization to provide near real-time insights on sending, receiving and locker activity and reveal savings opportunities all in one convenient interface.

Q. How does SendPro Analytics benefit my organization?

SendPro Analytics makes it easy to monitor key performance indicators and analyze trends to gain greater control over wasteful spending. It also recommends specific savings strategies and tracks progress over time.

Q. How do I access it?

Simply log in through Your Account on the Pitney Bowes website. The only thing you need is an internet connection.

## Q. What types of products are supported?

SendPro Analytics works with Pitney Bowes shipping, mailing and receiving software and hardware.

Q. Do I have to run reports manually from each device/solution?

No. SendPro Analytics does all the work for you automatically, in real time. It consolidates and calculates all of the data and presents it in a comprehensive dashboard.

Q. Can I export reports from SendPro Analytics?

Yes. All reports can be exported in your choice of CSV or Excel format.
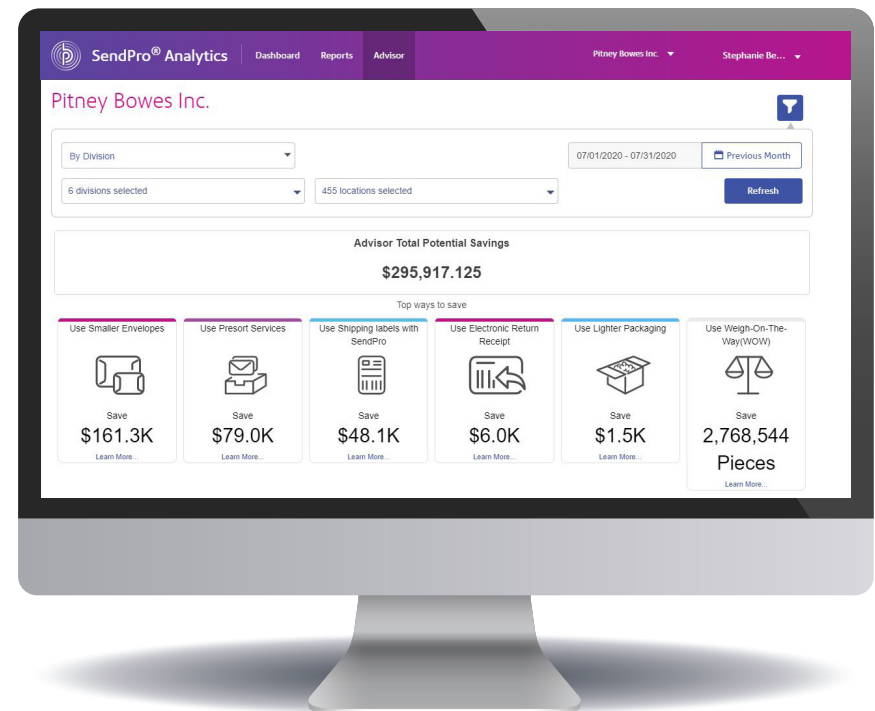

Q. Will SendPro Analytics connect with non-Pitney Bowes systems?

This solution only connects to and captures data from Pitney Bowes products.

Q. When should I add SendPro Analytics?

The sooner you connect to SendPro Analytics the faster you will reap the rewards of new-found savings. There's no need to wait until your contract renews. Learn more about SendPro Analytics or speak with your Pitney Bowes sales professional today. >>

Q. Is SendPro Analytics a subscription?

Yes, SendPro Analytics is a monthly subscription. It is offered in your choice of two options:

• One device and one user.

• Multiple devices and multiple users.

Q. Whom should I approach for more information and a product demo?

Please reach out to your Pitney Bowes Sales professional to discuss your needs and schedule a no-obligation product demo.

Q. Is SendPro Analytics available on the NASPO price books?

Yes, it is available.
