SendPro® Online

# Shipping made simple.

SendPro is an online mailing and shipping solution that simplifies the way your office sends by offering stamp and envelope printing and shipping, all from one, easy-to-use online application. Best of all, SendPro saves you money by giving you access to mailing and shipping discounts. Now you can compare shipping options through multiple carriers, accurately weigh packages, track shipments and manage all your mailing and shipping expenses in one place.

## New ways for you to save.

SendPro is a simple to use application that helps you leverage USPS® savings without ever leaving your office. Save whether you are sending letters, express deliveries, or packages.

## Bring the post office to your office.

Never run out of stamps again by printing postage from your PC. Print as many USPS stamps as you need on official USPS adhesive postage sheets or either direct to envelope, individually or in batches.

Simplify all the stages of shipping regardless of carrier--compare shipping options, print professional looking labels, track shipments and manage expenses online. SendPro consolidates information for USPS, FedEx®, and UPS® to standardize and simplify shipping. With one address book, all your contacts can be easily uploaded and used for every carrier sending mail and packages through every carrier.

## Weigh packages and print shipping labels with ease.

By integrating cloud-based software with a professional-quality label printer and digital scale, it's easy to weigh your packages or envelopes. Now anyone in your organization, regardless of location, can have a full shipping center right at their fingertips by accurately weighing packages and printing shipping labels all from their desktop.

Printer to left not included. Multicarrier subscription and label printer are optional add-ons.

## Access package tracking and updates from anywhere.

SendPro® is a cloud-based solution that allows you to manage the sending processes from just about anywhere. Keep track of all shipments from all users, whether they're in the office or working remotely. Check the status of all your shipments for all of the three carriers and keep both senders and recipients informed by emailing them the tracking numbers of their shipments. For those who have multi-user accounts featuring multi-location management, anyone in your office can ship right from their own computers, without ever leaving their desks.

## Control mailing and shipping expenses.

### Determine the right carrier for your sending needs.

Choose from your own contract terms or retail rates with the major carriers. With SendPro, you can always access the lowest USPS® rates for Priority Mail and Priority Mail Express.

### Send now and pay later with Pitney Bowes flexible payment options.

Pitney Bowes allows you to send now and pay later with one monthly statement for USPS shipping, postage and Pitney Bowes supplies. Plus, you'll earn reward points to help offset your spend.

## Consolidate all of your shipping costs in one report.

SendPro makes it easy to reconcile your mailing and shipping expenses. Now, you can see all of your shipments, for all three carriers, as well as your postage spend, all in real-time. Layer in multi-user with the multi-location management feature and you'll have even greater control over each locations' cost.

## Mailing and shipping activity and efficiencies.

There's no time-consuming record keeping because you'll gain insight into shipping activity and efficiencies. Since SendPro lets you export files, you can easily upload shipping information into common accounting software in order to streamline your invoicing.

## Designate staff as users.

As your business grows, more people are likely involved with shipping processes. It's also possible that they ship from more than one location. With SendPro, you decide who can use the system and manage multiple users and multiple locations and departments. This assures greater control and accountability over expenditures. You'll always have an overview of activity and expenses, plus the ability to generate detailed reports by user, client and department.

## Scale usage to meet your business needs.

Whenever you need more people to use the solution, you can add them at any time, along with designated sending permissions.
