**Mail Processing Equipment**

**1.2.18 Certificate of Acceptance Form**

Upon successful installation of equipment and the minimum on-site training for Customers, the Contractor shall provide a certificate of acceptance form to the Customer. The serial number of the main base unit will be the primary serial number used to identify mail processing equipment.

Each machine purchased or leased shall come with one user manual unless the manual is available on the Contractor's or Manufacturer's website. If the manual is available on the Contractor's or Manufacturer's website, the Contractor will direct the requesting Customer to the specific website location. The manual is to include operating instructions, safety precautions and proper preventative and remedial maintenance for the equipment.

**1.2.20 Punch-Out Catalog and Electronic Invoicing**

The Contractor may provide an MFMP punch-out catalog. The punch-out catalog provides an alternative mechanism for suppliers to offer the State of Florida access to products awarded under the Contract. The punch-out catalog also allows for direct communication between the MFMP eProcurement System and a supplier's ERP system, which can reflect real-time product inventory/availability information.

Through utilization of the punch-out catalog model, a Florida buyer will "punch out" to a supplier's website. Using the search tools on the supplier's Florida punch-out catalog site, the user selects the desired products and services. When complete, the user exits the supplier's punch-out catalog site and the shopping cart (full of products and services) is "brought back" to MFMP. No orders are sent to a supplier when the user exits the supplier's punch-out catalog site. Instead, the chosen products and services are "brought back" to MFMP as Contract line items. The user can then proceed through the normal workflow steps, which may include adding/editing the items to a requisition or a purchase order. An order is not submitted to a supplier until the buyer actually adds the line items to a requisition and the purchase order is approved and sent to the supplier.

At the State's option, the Contractor may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Electronic invoices may be required to be submitted to the agency through the Ariba Network (AN) in one of three mechanisms as listed below. Contractors may select the method that best meets their capabilities from the following list:

- **cXML (commerce eXtensible Markup Language)**  
This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services. The cXML format is the Ariba preferred method for eInvoicing.
- **EDI (Electronic Data Interchange)**  
This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services.

**State Term Contract No. 44102100-17-1  
Mail Processing Equipment**

- **PO Flip via ASN**

The online process allows suppliers to submit invoices via the ASN for catalog and non-catalog products and services. Suppliers have the ability to create an invoice directly from their Inbox in their ASN account by simply “flipping” the PO into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the state and the third party provider of MFMP, a state Contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor’s trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the Contract.

The Contractor will work with the MFMP management team to obtain specific requirements for the punch-out catalog and electronic invoicing.

**1.2.21 Contract Reporting**

The Contractor shall report information on orders received from state agencies and OEU's associated with this contract.

The Contractor shall submit reports in accordance with the following schedule:

| Report  | Period Covered                                    | Due date (s)   |

**1.2.21.1 MFMP Transaction Fee Reports**

The Contractor is required to submit monthly Transaction Fee Reports in electronic format. Reports are due ten (10) working days after the end of the reporting period. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and Bidder training presentations available online at the Transaction Fee Reporting and Bidder Training subsections under Bidders on the MFMP website: MFMP Transaction Fee and Reporting. **1.2.21.2 Contract Quarterly Sales Report (Attachment K)**

The Contractor agrees to submit a Quarterly Sales Report (Attachment K) to the DMS Contract Manager within fifteen working business days after the close of each State Fiscal quarter (September 30, December 31, March 31, and June 30).

Quarterly Reporting periods should coincide with the contract term and should begin the quarter following contract execution. Reports must be submitted in MS Excel format. The report will include all sales (orders) from State Agency and Other Eligible Users received (associated with this contract) during the period. Initiation and submission of the Quarterly Report is the responsibility of the Contractor without prompting or notification from the DMS Contract Manager. If no orders are received during the period, the contractor must submit a report stating that there was no activity. If the Contractor fails to submit two consecutive quarterly sales reports, the Contract may be terminated for convenience or the Department may choose to not renew the Contract.

In addition, the Department may require additional Contract sales information such as copies of purchase orders, or ad hoc sales reports. The Contractor shall submit these specific ad hoc requests within the specified amount of time as requested by the Department.

**1.2.21.3 Diversity Reporting**

The State of Florida is committed to supporting its diverse business industry and population through ensuring participation by minority, women, and veteran owned business enterprises in the economic life of the State. The State of Florida Mentor Protégé Program connects minority-, women-, and veteran business enterprises with private corporations for business development mentoring. **SECTION 7. WORKERS' COMPENSATION AND GENERAL LIABILITY INSURANCE, AND INDEMNIFICATION**

**7.1 Workers' Compensation Insurance.**

To the extent required by law, the Contractor must be self-insured against, or must secure and maintain during the life of the contract, Worker's Compensation Insurance for all its employees connected with the work of this project, and in case any work is subcontracted, the Contractor must require the subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees unless such employees engaged in work under the resulting contract are covered by the Contractor's insurance program. Self-insurance or insurance coverage must comply with the Florida Worker's Compensation law. In the event hazardous work is being performed by the Contractor under the resulting contract or purchase order and any class of employees performing the hazardous work is not protected under Worker's Compensation statutes, the Contractor must provide, and cause each subcontractor to provide adequate insurance satisfactory to the Department for the protection of employees not otherwise protected.

**7.2 General Liability Insurance**

The Contractor must secure and maintain Commercial General Liability Insurance including bodily injury, property damage, product-liability, personal & advertising injury and completed operations. This insurance must provide coverage for all claims that may arise from the services, and operations completed under the Contract and any resulting contract or purchase order, whether such services or operations are by the Contractor or anyone directly or indirectly employed by them. Such insurance must include a Hold Harmless Agreement in favor of the State of Florida and also include the State of Florida as an Additional Insured for the entire length of the Contract and any resulting contract or purchase order. The Contractor is responsible for determining the minimum limits of liability necessary to provide reasonable financial protections to the Contractor and the State of Florida under the Contract and any resulting contract or purchase order.

All insurance policies must be with insurers licensed or eligible to transact business in the State of Florida. The Contractor's current certificate of insurance must contain a provision that the insurance must not be canceled for any reason except after thirty (30) days written notice to the Department's Contract Manager.

**State Term Contract No. 44102100-17-1

The Contractors must submit insurance certificates evidencing such insurance coverage prior to execution of a contract with the Department.

**7.3 Indemnification.**

The Contractor agrees to indemnify, defend, and hold the Department, Customer, the State of Florida, its officers, employees and agents harmless from all fines, claims, assessments, suits, judgments, or damages, including consequential, special, indirect, and punitive damages, including court costs and attorney's fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret or intellectual property right or out of any acts, actions, breaches, neglect or omissions of the Contractor, its employees, agents, subcontractors, assignees or delegates related to the Contract, as well as for any determination arising out of or related to the Contract that the Contractor or Contractor's employees, agents, subcontractors, assignees or delegates are not independent contractors in relation to the Department. The Contract does not constitute a waiver of sovereign immunity or consent by the Department or the State of Florida or its subdivisions to suit by third parties.

Without limiting this indemnification, the Department or Customer may provide the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense.

**SECTION 8. PUBLIC RECORDS, TRADE SECRETS, DOCUMENT MANAGEMENT AND INTELLECTUAL PROPERTY.**

**8.1 Public Records.**

The Department may unilaterally cancel this Contract for refusal by the Contractor to comply with this section by not allowing public access to all documents, papers, letters or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from section 24(a) of Article I of the State Constitution and section 119.07(1), F.S.

Solely for the purposes of this section the contract manager is the agency custodian of public records, unless another is designated per (e), below.

If, under a resulting contract or purchase order, the Contractor is providing services and is acting on behalf of a public agency, as provided by section 119.0701, Florida Statutes. The Contractor shall:

- (a) Keep and maintain public records required by the public agency to perform the service;

(b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within reasonable time and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the contract term and following the completion of the contract if the contractor does not transfer the records to the public agency;

(d) Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency; and

**(e) IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS AND MAILING ADDRESS PROVIDED IN THE RESULTING CONTRACT OR PURCHASE ORDER.**

**8.2 Protection of Trade Secrets or Confidential Information.**

If the Contractor considers any portion of materials made or received in the course of performing the Contract ("contract-related materials") to be trade secret under section 812.081, F.S., or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as "confidential" when submitted to the Department.

If the Department receives a public records request for contract-related materials designated by the Contractor as "confidential," the Department will provide only the portions of the contract-related materials not designated as "confidential." If the requester asserts a right to examine contract-related materials designated as "confidential," the Department will notify the Contractor. The Contractor will be responsible for responding to and resolving all claims for access to contract-related materials it has designated "confidential."

If the Department is served with a request for discovery of contract-related materials designated "confidential," the Department will promptly notify the Contractor about the request. The Contractor will be responsible for filing the appropriate motion or objection in response to the request for discovery. The Department will provide materials designated "confidential" only if the Contractor fails to take appropriate action, within

**State Term Contract No. 44102100-17-1

timeframes established by statute and court rule, to protect the materials designated as “confidential” from disclosure.

The Contractor will protect, defend, and indemnify the Department for claims, costs, fines, and attorney’s fees arising from or relating to its designation of contract-related materials as “confidential.”

**8.3 Document Management.**

The Contractor must retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers and documents that were made in relation to this Contract. Contractor must retain all documents related to the Contract for five years after expiration of the Contract, or, if longer, the period required by the General Records Schedules maintained by the Florida Department of State available at <http://dos.myflorida.com/library-archives/records-management/general-records-schedules/>.

**8.4 Intellectual Property.**

Unless specifically addressed in the Contract, intellectual property rights to all property created or otherwise developed by the Contractor for the Department will be owned by the State of Florida through the Department at the completion of the Contract.

Any inventions or discoveries developed in the course of or as a result of services performed under the Contract which are patentable pursuant to 35 U.S.C. §101 are the sole property of the state of Florida. Contractor must inform the Department of any inventions or discoveries developed or made in connection with the Contract and will be referred to the Florida Department of State for a determination on whether patent protection will be sought for the invention or discovery. The State of Florida will be the sole owner of any and all patents resulting from any invention or discovery made in connection with this contract.

Contractor must notify the Department of State of any publications, artwork, or other copyrightable works developed in connection with the Contract. All copyrights created or developed in connection with the Contract are the sole property of the State of Florida.

**SECTION 9. DATA SECURITY AND SERVICES.**

**9.1 Duty to Provide Secure Data.**

The Contractor will maintain the security of State of Florida Data including, but not limited to, a secure area around any display of such Data or Data that is otherwise visible. The Contractor will also comply with all HIPAA requirements and any other state and federal rules and regulations regarding security of information.

**9.2 Warranty of Security.**

Unless otherwise agreed in writing, the Contractor and its subcontractors will not perform any of the services from outside of the United States, and the Contractor will not allow any State of Florida Data to be sent by any medium, transmitted or accessed outside of the United States.

**State Term Contract No. 44102100-17-1**  
**Mail Processing Equipment**

Notwithstanding any provision of this Contract to the contrary, the Contractor must notify the Department as soon as possible, in accordance with the requirements of section 501.171, F.S., and in all events within one (1) business day in the event Contractor discovers any Data is breached, any unauthorized access of Data occurs (even by persons or companies with authorized access for other purposes), any unauthorized transmission of Data or any credible allegation or suspicion of a material violation of the above. This notification is required whether the event affects one agency/customer or the entire population. The notification must be clear and conspicuous and include a description of the following:

- (a) The incident in general terms.
- (b) The type of information that was subject to the unauthorized access and acquisition.
- (c) The type and number of entities who were, or potentially have been affected by the breach.
- (d) The actions taken by the Contractor to protect the Data from further unauthorized access. However, the description of those actions in the written notice may be general so as not to further increase the risk or severity of the breach.

**9.3 Remedial Measures.**

Upon becoming aware of an alleged security breach, Contractor's Contract Manager must set up a conference call with the Department's Contract Manager. The conference call invitation must contain a brief description of the nature of the event. When possible, a 30 minute notice will be given to allow Department personnel to be available for the call. If the designated time is not practical for the Department, an alternate time for the call will be scheduled. All available information must be shared on the call. The Contractor must answer all questions based on the information known at that time and answer additional questions as additional information becomes known. The Contractor must provide the Department with final documentation of the incident including all actions that took place. If the Contractor becomes aware of a security breach or security incident outside of normal business hours, the Contractor must notify the Department's Contract Manager and in all events, within one business day.

**9.4 Indemnification (Breach of Warranty of Security).**

The Contractor agrees to defend, indemnify and hold harmless the Department, Customer, the State of Florida, its officers, directors and employees for any claims, suits or proceedings related to a breach of the Warranty of Security. The Contractor will include credit monitoring services at its own cost for those individuals affected or potentially affected by a breach of this warranty for a two year period of time following the breach.

**9.5 Annual Certification.**

The Contractor is required to submit an annual certification demonstrating compliance with the Warranty of Security to the Department by December 31 of each Contract year.

**State Term Contract No. 44102100-17-1

**SECTION 10. GRATUITIES AND LOBBYING.**

**10.1 Gratuities.**

The Contractor will not, in connection with this Contract, directly or indirectly (1) offer, give, or agree to give anything of value to anyone as consideration for any State of Florida officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone anything of value for the benefit of, or at the direction or request of, any State of Florida officer or employee.

**10.2 Lobbying.**

In accordance with sections 11.062 and 216.347, F.S., Contract funds are not for the purpose of lobbying the Legislature, the judicial branch, or the Department. Pursuant to subsection 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding the Contract, after the Contract execution and during the Contract's term.

**SECTION 11. CONTRACT MONITORING.**

**11.1 Performance Standards.**

The Contractor agrees to perform all tasks and provide deliverables as set forth in the Statement of Work and attachments to the Contract. The Department and the Customer will be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof. Coordination must be maintained by the Contractor with representatives of the Customer, the Department, or of other agencies involved in the Contract on behalf of the Department.

**11.2 Performance Deficiency.**

The Department or Customer may, in its sole discretion, notify the Contractor of the deficiency to be corrected, which correction must be made within a time-frame specified by the Department or Customer. The Contractor must provide the Department or Customer with a corrective action plan describing how the Contractor will address all issues of contract non-performance, unacceptable performance, and failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance.

**11.3 Financial Consequences of Non-Performance.**

If the corrective action plan is unacceptable to the Department or Customer, or fails to remedy the performance deficiencies, the Contractor will be assessed a non-performance retainage equivalent to 10% of the total invoice amount or as specified in the Contract. The retainage will be applied to the invoice for the then-current billing period. The retainage will be withheld until the Contractor resolves the deficiency. If the deficiency is subsequently resolved, the Contractor may invoice the Customer for the retained amount during the next billing period. If the Contractor is unable to resolve the deficiency, the funds retained will be forfeited.

**State Term Contract No. 44102100-17-1**  
**Mail Processing Equipment**

**11.4 Liquidated Damages.**

The Contractor will promptly notify the Department or Customer upon becoming aware of any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any commodity or contractual service. The Contractor will use commercially reasonable efforts to avoid or minimize any delays in performance and will inform the Department or Customer of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by the Department or Customer has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor will promptly so notify the Department or Customer and use commercially reasonable efforts to perform its obligations on time notwithstanding the Department or Customer's delay.

The Contractor acknowledges that untimely performance or other material noncompliance will damage the Department or Customer, but by their nature such damages may be difficult to ascertain. Accordingly, any liquidated damages provisions stated in the solicitation will apply to this Contract. Liquidated damages are not intended to be a penalty and are solely intended to compensate for damages.

**11.5 Force Majeure, Notice of Delay, and No Damages for Delay.**

The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. In case of any delay the Contractor believes is excusable, the Contractor will notify the Department or Customer in writing of the delay or potential delay and describe the cause of the delay either (1) within 10 days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five days after the date the Contractor first had reason to believe that a delay could result. The foregoing will constitute the Contractor's sole remedy or excuse with respect to delay. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages will be asserted by the Contractor. The Contractor will not be entitled to an increase in the Contract price or payment of any kind from the Department or Customer for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor will perform at no increased cost, unless the Department or Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State of Florida or to Customers, in which case the Department or Customer may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers with respect to commodities or contractual services subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the commodity or contractual services that are the subject of the

**State Term Contract No. 44102100-17-1

delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

**SECTION 12. CONTRACT AUDITS.**

**12.1 Performance or Compliance Audits.**

The Department may conduct, or cause to have conducted, either or both performance and compliance audits of the Contractor and subcontractors as determined by the Department. The Department may conduct an audit and review all the Contractor's and subcontractor's data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners or agents of the Contractor, pertaining to this Contract, may be inspected by the Department upon 15 days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners or agents are not required for the Department or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The State of Florida's Chief Financial Officer and the Office of the Auditor General also have authority to perform audits and inspections.

**12.2 Payment Audit.**

Records of costs incurred under terms of the Contract will be maintained. Records of costs incurred will include the Contractor's general accounting records, together with supporting documents and records of the Contractor and all subcontractors performing work, and all other records of the Contractor and subcontractors considered necessary by the Department, State of Florida's Chief Financial Officer or the Office of the Auditor General for audit.

**SECTION 13. BACKGROUND SCREENING AND SECURITY.**

**13.1 Background Check.**

The Department may require the Contractor and its employees, agents, representatives and subcontractors to provide fingerprints and be subject to such background checks as directed by the Department. The cost of the background checks will be borne by the Contractor. The Department may require the Contractor to exclude the Contractor's employees, agents, representatives or subcontractors based on the background check results. In addition, the Contractor must ensure that all persons have a responsibility to self-report to the Contractor within three calendar days any arrest for any Disqualifying Offense. The Contractor must notify the Contract Manager within 24 hours of all details concerning any reported arrest. The Contractor will ensure that all background screening will be refreshed upon the request of the Department for each person during the term of the Contract.

**13.2 E-Verify.**

In accordance with Executive Order 11-116, the Contractor agrees to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired during the term of the Contract for the services specified in the Contract. The Contractor must also include a requirement in subcontracts that the

**State Term Contract No. 44102100-17-1

subcontractor must utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term. In order to implement this provision, the Contractor must provide a copy of its DHS Memorandum of Understanding (MOU) to the Contract Manager within five days of Contract execution. If the Contractor is not enrolled in DHS E-Verify System, it will do so within five days of notice of Contract award, and provide the Contract Manager a copy of its MOU within five days of Contract execution. The link to E-Verify is provided below. <http://www.uscis.gov/e-verify>. Upon each Contractor or subcontractor new hire, the Contractor must provide a statement within five days to the Contract Manager identifying the new hire with its E-Verify case number.

**13.3 Disqualifying Offenses.**

If at any time it is determined that a person has a criminal misdemeanor or felony record regardless of adjudication (e.g., adjudication withheld, a plea of guilty or nolo contendere, or a guilty verdict) within the last six years from the date of the court's determination for the crimes listed below, or their equivalent in any jurisdiction, the Contractor is required to immediately remove that person from any position with access to State of Florida Data or directly performing services under the Contract. The disqualifying offenses are as follows:

- (a) Computer related or information technology crimes
- (b) Fraudulent practices, false pretenses and frauds, and credit card crimes
- (c) Forgery and counterfeiting
- (d) Violations involving checks and drafts
- (e) Misuse of medical or personnel records
- (f) Felony theft

**13.4 Communications and Confidentiality.**

The Contractor agrees that it will make no statements, press releases, or publicity releases concerning the Contract or its subject matter or otherwise disclose or permit to be disclosed any of the data or other information obtained or furnished in compliance with the Contract, or any particulars thereof, during the period of the Contract, without first notifying the Department's Contract Manager or the Department designated contact person and securing prior written consent. The Contractor must maintain confidentiality of all confidential data, files, and records related to the services and commodities provided pursuant to the Contract and must comply with all state and federal laws, including, but not limited to sections 381.004, 384.29, 392.65, and 456.057, F.S. The Contractor's confidentiality procedures must be consistent with the most recent version of the Department security policies, protocols, and procedures. The Contractor must also comply with any applicable professional standards with respect to confidentiality of information.

**Mail Processing Equipment**

**6. Section 3.2.20, Punch-Put Catalog and Electronic Invoicing, has been updated.**

~~At the State's option, the Contractor may be required to provide an MFMP punch-out catalog.~~ The punch-out catalog provides an alternative mechanism for suppliers to offer the State of Florida access to products awarded under the Contract. The punch-out catalog also allows for direct communication between the MFMP eProcurement System and a supplier's ERP system, which can reflect real-time product inventory/availability information.

Through utilization of the punch-out catalog model, a Florida buyer will "punch out" to a supplier's website. Using the search tools on the supplier's Florida punch-out catalog site, the user selects the desired products and services. When complete, the user exits the supplier's punch-out catalog site and the shopping cart (full of products and services) is "brought back" to MFMP. No orders are sent to a supplier when the user exits the supplier's punch-out catalog site. Instead, the chosen products and services are "brought back" to MFMP as Contract line items. The user can then proceed through the normal workflow steps, which may include adding/editing the items to a requisition or a purchase order. An order is not submitted to a supplier until the buyer actually adds the line items to a requisition and the purchase order is approved and sent to the supplier.

At the State's option, the Contractor may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Electronic invoices may be required to be submitted to the agency through the Ariba Network (AN) in one of three mechanisms as listed below. Contractors may select the method that best meets their capabilities from the following list:

- **cXML (commerce eXtensible Markup Language)**  
This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services. The cXML format is the Ariba preferred method for eInvoicing.
  
- **EDI (Electronic Data Interchange)**  
This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services.
  
- **PO Flip via ASN**  
The online process allows suppliers to submit invoices via the ASN for catalog and non-catalog products and services. Suppliers have the ability to create an invoice directly from their Inbox in their ASN account by simply "flipping" the PO into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the state and the third party provider of MFMP, a state Contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor's trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the Contract.

Can you please clarify if by accepting we are still able to negotiate terms and conditions of the bid? | 40. | The Contractor cannot assign the Agreement without the States consent. Would you agree to allow assignment to a Contractor's Permitted Assignee? In the event of identical bids where one or more of the Bidders can be awarded but not all, the Department will select a Bidder based on the criteria identified in Rule 60A-1.011, F.A.C.

**2.2.16 Rejection of Bids**

Bids that do not meet all requirements, specifications, terms, and conditions of the solicitation or fail to provide all required information, documents, or materials may be rejected as non-responsive. Bidders whose bids, references, or current status do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of a contract may be rejected as not responsible. **2.2.18 Redacted Submissions**

The Redacted Copy should only redact those portions of material that the Bidder claims is confidential, proprietary, trade secret or otherwise not subject to disclosure.

In the event of a request for public records pursuant to Chapter 119, F.S., the Florida Constitution or other authority, to which documents that are marked as confidential are responsive, the Department will provide the Redacted Copy to the requestor. If a requestor asserts a right to the Confidential Information, the Department will notify the Bidder such an assertion has been made. It is the Bidder's responsibility to assert that the information in question is exempt from disclosure under Chapter 119, F.S., or other applicable law. If the Department becomes subject to a demand for discovery or disclosure of the Confidential Information of the Bidder in a legal proceeding, the Department shall give the Bidder prompt notice of the demand prior to releasing the information (unless otherwise prohibited by applicable law). The Bidder shall be responsible for defending its determination that the redacted portions of its response are confidential, proprietary, trade secret, or otherwise not subject to disclosure.

By submitting a bid, the Bidder agrees to protect, defend, and indemnify the Department for any and all claims arising from or relating to the Bidder's determination that the redacted portions of its bid are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Bidder fails to submit a redacted copy of information it claims is confidential, the Department is authorized to produce the entire documents, data, or records submitted to the Department in answer to a public records request for these records.

**2.2.19 Additional Information**

By submitting a bid, Bidder certifies that it agrees to and satisfies all criteria specified in the ITB. The Department may request, and Bidder shall provide, additional supporting information or documentation. Failure to supply supporting information or documentation as required and requested may result in disqualification of the bid.

**3.2.19 Equipment Manual**

Each machine purchased or leased shall come with one user manual unless the manual is available on the Contractor's or Manufacturer's website. If the manual is available on the Contractor's or Manufacturer's website, the Contractor will direct the requesting Customer to the specific website location. The manual is to include operating instructions, safety precautions and proper preventative and remedial maintenance for the equipment.

**3.2.20 Punch-Out Catalog and Electronic Invoicing**

At the State's option, the Contractor may be required to provide an MFMP punch-out catalog. The punch-out catalog provides an alternative mechanism for suppliers to offer the State of Florida access to products awarded under the Contract. The punch-out catalog also allows for direct communication between the MFMP eProcurement System and a supplier's ERP system, which can reflect real-time product inventory/availability information.

Through utilization of the punch-out catalog model, a Florida buyer will "punch out" to a supplier's website. Using the search tools on the supplier's Florida punch-out catalog site, the user selects the desired products and services. When complete, the user exits the supplier's punch-out catalog site and the shopping cart (full of products and services) is "brought back" to MFMP. No orders are sent to a supplier when the user exits the supplier's punch-out catalog site. Instead, the chosen products and services are "brought back" to MFMP as Contract line items. The user can then proceed through the normal workflow steps, which may include adding/editing the items to a requisition or a purchase order. An order is not submitted to a supplier until the buyer actually adds the line items to a requisition and the purchase order is approved and sent to the supplier.

At the State's option, the Contractor may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Electronic invoices may be required to be submitted to the agency through the Ariba Network (AN) in one of three mechanisms as listed below. Contractors may select the method that best meets their capabilities from the following list:

- **cXML (commerce eXtensible Markup Language)**  
This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services. The cXML format is the Ariba preferred method for eInvoicing.
- **EDI (Electronic Data Interchange)**  
This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog products and services.
- **PO Flip via ASN**  
The online process allows suppliers to submit invoices via the ASN for catalog and non-catalog products and services. Suppliers have the ability to create an invoice directly from their Inbox in their ASN account by simply "flipping" the PO into an invoice. This option does not require any special software or technical capabilities.

**State Term Contract No. 44102100-17-1  
Mail Processing Equipment**

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the state and the third party provider of MFMP, a state Contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. The Contractor will work with the MFMP management team to obtain specific requirements for the punch-out catalog and electronic invoicing.

**3.2.21 Performance Bond**

If deemed necessary, the Customer may require the Contractor to furnish (without additional cost) a performance bond, a negotiable irrevocable letter of credit or other form of security for the faithful performance of work. Determination of the appropriateness and amount of any bond requirement, is the sole responsibility, and at the sole discretion, of the Customer.
