

Meter Update Kit**DM100i/200L Postal Meter Update Program**

Dear Valued Customer:

Based on our records we will need to perform a required postal meter update on your DM100i/200L system to ensure postal compliance and continued operation. While performing this update, the machine will receive preventative maintenance. This will be done at no charge and a Pitney Bowes Customer Care Specialist will contact you to schedule the update at your convenience.

Please hold this meter update kit for the Customer Care Specialist once it is received

By updating the system you will receive the benefits of our most technologically advanced software version for your current model, without additional equipment costs.

As a reminder, this letter confirms that this will not impact any terms and conditions of your maintenance agreement.

If you have any questions, please call us at 800-522-0020.

Sincerely,

Pitney Bowes Customer Care Center

Every connection is a new opportunity™
