

G-NAF Premium Australia™

2018.05

Release Notes

G-NAF® is the most authoritative listing of physical addresses in Australia. It comprises of around 14.4 million addresses, each having a unique identifier and latitude/longitude coordinates.

Released four times per year, the data used to build G-NAF® comes from several contributors that include Australia Post, the Australian Electoral Commission and State/Territory mapping agencies and land registries.

Complete documentation is located at [our support site](#).
