Summary

The StreetPro suite of data products offer detailed and authoritative street-level vector maps, with over 40 layers of information. Worldwide coverage is available in a consistent specification and data model.

The StreetPro suite consists of two related products:

- **StreetPro** is the full featured version of the product suite including detailed streets information, accurate street topology for basic routing purposes, rich feature information and administrative boundaries.
- **Postcodes & Administrative Boundaries** is a reduced version of StreetPro including Postcodes, Suburbs and Administrative boundaries.
