Summary

The StreetPro suite of data products offers detailed and authoritative street-level vector maps, with over 40 layers of information included. Worldwide coverage is available in a consistent specification and data model.

The StreetPro suite consists of two related products:

- **StreetPro** is the full featured version of the product suite including detailed streets information, accurate street topology for basic routing purposes, rich feature information and administrative boundaries.
- **Postcodes & Administrative Boundaries** is a reduced version of StreetPro including Postcodes, Postcode Points and administrative areas.

Feature Count Statistics

Table	Description	Local Names	Count NA	Count 2015.03
