## Product Overview

The Pitney Bowes Property Attribute Dataset lets you enrich your location information with more than 200 property attribute fields on over 149 million US properties. This includes 99% of the properties in the USA, including residential and commercial properties.

Following is a list of variants for the Property Attributes Dataset, which will be explained further in this document:

1. Property Attributes Parcels - Classic
2. Property Attributes Parcels - Plus
3. Property Attributes Parcels - Historical Sales

## Data Vintage

**Table 1: Version Table**

<b>Product</b>	<b>Version</b>	<b>Compatible with Parcel Boundary Dataset Versions</b>

Property Attributes Parcels Plus	150,075,339	108,844,001	17,899,720	21,982,811	1,348,807

Product	Total Records
Property Attributes Parcels Historical Sales	190,654,134

## Change Log

Following is the list of changes implemented in this release of data.

### 2018.07

- The Parcel Historical Sales data is refreshed for this month and this data will be updated monthly for the release
- The refreshed Historical Sales data is compatible with the 2018.03 version of Parcel Boundary datasets

### 2018.06

- TaxAddress field now display data as PO BOX followed by House Number for PO Box addresses
- The Parcel Historical Sales data is refreshed for this month and this data will be updated monthly for the release

- The refreshed Historical Sales data is compatible with the 2018.06 version of Parcel Boundary datasets

#### 2018.05

- The Parcel Historical Sales data is refreshed for this month and this data will be updated monthly for the release
- The refreshed Historical Sales data is compatible with the 2018.03 version of Parcel Boundary datasets

#### 2018.04

- The Parcel Historical Sales data is refreshed for this month and this data will be updated monthly for the release
- The refreshed Historical Sales data is compatible with the 2018.03 version of Parcel Boundary datasets

#### 2018.03

- A few new columns have been added to the product layouts such as, LinkID, PROP\_CAT, and PROP\_REPLACECALC
- PROP\_CAT has been added to the product/layout to define if a property is residential or commercial.
- Replacement cost (PROP\_REPLACECALC) has been added to the product/layout with the value currently as NULL, but in a future release will be updated to have a valid value.
- The Property Attributes Parcels Premium variant has been discontinued from this release. New bundles definition have been created which includes only Classic, Plus and Historical Sales.
- The Historical Sales Dataset is refreshed for this release
- The PROP\_MTGAMT datatype has been changed to bigint

## Known Issues

Following is the list of known issues encountered in 2018.06 release.

- There are 10,915 records where TaxAddress field still displays record as House Number followed by PO BOX
- Few of the First and Last Name records have numeric values, for example 138548591|4-T, 138556091|376A, 138573438|4, etc.
- There are some extreme values in the data for particular columns such as, "999999998" for PROP\_LANDSQFT, 999999999900 for PROP\_ACRES, etc. The extreme values can be high or low respective to the field.
- You may find some special characters like, &, %, etc., in a few records for City, State, and Street
- There are a few instances of text truncation existing in APN and PID that cause issues with linking to Parcel data
- You may find some special characters like, !, @, #, \$, %, >, <, in the PID column

- The Latitude and Longitude values might be blank for some of the records in Plus variant
- Found few duplicate LinkID values in the Historical data
