## Summary

The StreetPro suite of data products offers detailed and authoritative street-level vector maps, with over 40 layers of information included. Worldwide coverage is available in a consistent specification and data model.

## Workspace Changes

The \*mipro125.wor workspaces make use of the enhanced rendering features in MapInfo Professional 12.5.

**Caution:** Any workspace file with "mipro125" in its name can only be used with MapInfo Professional .

## What's New?

- Update of House Number Information on 140 locations
- Update to the road network geometry and road attributes - along 300 km higher classified roads and along 700 km lower classified roads
- Update (addition of new POIs, re-categorization and removal of duplicate/out-of business POIs) done on multiple POI types
