Summary

The StreetPro suite of data products offers detailed and authoritative street-level vector maps, with over 40 layers of information included. Worldwide coverage is available in a consistent specification and data model.

Workspace Changes

- The taiw_int_mipro125.wor workspaces make use of the enhanced rendering features in MapInfo Professional 12.5.

Caution: Any workspace file with "mipro125" in its name can only be used with MapInfo Professional 12.5.

What's New?

- From 2016.09, we have implemented a new *.mws workspace file designated as **xxx_streetpro.mws** and **xxx_streetpro_local.mws** (for Non Latin countries), where **xxx** represents three (3) letter country code.

The workspace has been optimised to enable raster tile generation within Spectrum Spatial; focusing on both tile rendering speed and representation of key geographical features at appropriate scales within the map view. This allows users to overlay their data providing geographical context and insight into what's important to them.

- Update of Streetname attribute on about 400 locations
- Addition and Update of POIs done throughout the country

StreetPro Taiwan Feature Count Statistics

Table	Description	Local Names	Count 2015.09	Count 2016.09
taiwa1	Administrative Level 0	Taiwan	*82	*83
