Centrus[®] Desktop 6.07.00.N Release Announcement

Date: April 2019
To: Centrus Desktop Customers
From: Ellene Duffy, Sr. Technical Product Manager – Americas Geocoding
Ref: KCN607RA419

Dear Centrus Desktop Customer,

Pitney Bowes is pleased to announce the release of Centrus Desktop 6.07.00.N. This release is available for Internet download from the Pitney Bowes eStore.

Listed below is an overview of regulatory information, release highlights, database compatibility and platform changes for this release.

Regulatory Information

The implementation date for CASS Cycle O has been deferred by the United States Postal Service[®] (USPS[®]) until August 1, 2019. The USPS Coding Accuracy Support System (CASS[™]) Cycle N will be valid through July 31, 2019. The USPS reserves the right to modify the “valid through” date in the future if conditions warrant it. Centrus Desktop is CASS Certified for Cycle N in the 6.07.00.N release version.

Highlights and General Enhancements

This release includes the following highlights; please refer to the Centrus Desktop Technical Notes for more detailed information.

- **Added Master Location Data (MLD) Extended Attributes**
Extended Attributes are now available with MLD. This new feature provides access to extended attributes associated with an addressable location that has a pbKey. When matching addresses with MLD, you can now seamlessly return additional property information associated with the address, such as APN, Elevation, Address Type, Lot Size, etc.
- **Added Residential Delivery Indicator (RDI™)**
This United States Postal Service (USPS®) data product identifies whether a delivery type is classified as residential or business. If you are shipping to residences, you may lower costs by shipping with the Postal Service™ and avoid residential delivery surcharges typically charged by other shipping companies.
- **Improvements to Singleline Address Matching**
Several enhancements to Singleline matching.

Database Compatibility

NOTE: There are no data format changes to the street and point data sets for this release.

Platform-Specific Changes

New Platform

For the Centrus Desktop 6.07.00.N release, the following additional platform is supported:

- Windows Server 2016
- Official support for Windows Server 2019 is expected by the year-end

Fixed Change Requests

For fixed change requests please refer to the *Centrus Desktop 6.07.00.N Technical Notes* for details.

Additional Information

Included with this announcement is a high-level, [Centrus Desktop 6.07.00.N Release Checklist](#) that provides an overview of the changes in this release. Centrus Desktop 6.07.00.N technical notes and installation instructions are available for review and download from the Pitney Bowes Technical Support Web site, <https://www.pitneybowes.com/us/contact-dcs.html>
