## LIST CONVERSION PLUS 6.3 Release Announcement

*April 2000*

**To:** AS/400 List Conversion Plus Customers  
**Ref:** LCP630d2

**THIS DOCUMENT CONTAINS CRITICAL TECHNICAL INFORMATION!**  
**If necessary, forward this letter to the appropriate technical person in your organization.**

Dear AS/400 List Conversion Plus Customer:

Group 1 Software is pleased to announce the long-awaited release of List Conversion Plus version 6.3 for the AS/400 platform, which is now designated as a replacement product. Please refer to the attached Release Notes for detailed platform specific information.

**IMPORTANT NOTE: This release of List Conversion Plus 6.3 is replacing your current AS/400 release of List Conversion 2.1m25. Please install and begin using this product as soon as possible. Effective August 25, 2000, we will no longer support List Conversion 2.1m25.**

If you have any questions, please call Technical Support at **1-800-367-6950** and select menu options **4-1-1** to reach a List Products Technical Support Representative. You can also send comments and requests via e-mail to **support@g1.com**. If you would like notification via e-mail (or fax if that is the only way) once your product ships (includes package tracking information), send your e-mail or fax number to **pds@g1.com** – only a single contact (the Ship-To) can be notified at this time. For immediate e-mail notification when technical product announcements are sent, subscribe to our Listserv® lists from our website by logging in to the Technical Support area and selecting Electronic Product Notifications.

Sincerely,

Randy Knepp  
Supervisor, Technical Support  
Coding and List Products

## List Conversion Plus 6.3 RELEASE NOTES

Below is a table of parameter record changes, enhancements, and bug fixes. Please refer to the new List Conversion Plus AS/400 User's Guide for more details about these parameter record changes. A new User's Guide is included with this release.

PARAMETER RECORD*	ENHANCEMENT/BUG ID (if applicable)	DESCRIPTION OF CHANGE(S)
HEADER		For Y2K compliance, the HEADER parameter record dat field has been increased from 8 to 10 characters. This shifted the rest of the parameter record options 2 characters to the right. All dates are now in MM/DD/CCYY format.
ALL PARAMETER RECORDS		Work areas <b>W, X, Y</b> and <b>Z</b> have been increased in size from <b>99</b> to <b>256</b> . Work areas can be presented as <b>W01</b> or <b>W001</b> with the <b>'W'</b> starting 1 position to the left.
FILEDF		For <b>LCP10</b> : LCPNAME, LCPFWD, LCPREJ and LCPLSTAT are acceptable file names. For <b>LCP90</b> : no file names are required.
GNDSEX	ENH #5754	New parameter borrowed from Merge/Purge Plus and Business Merge/Purge Plus. Allows user to use their own gender and sex code.
IF EQ, IF NEQ, IF GT, IF GTE, IF LT, IF LTE	ENH #5753	New parameters for conditional compares.
ISADDR	ENH #5751	Now allows for 1 input field for parsing only. New invalid ZIP option to blank out CSZ information.
ISCS, ISCSZ, ISZIP	ENH #5752	New invalid ZIP treatment in col, 79 - an R, I or B may be entered.
ISFULL		New default for gender/sex locations. New fields for treatment of gender/sex codes.
ISPART		New fields for treatment of gender/sex codes.
SELECT	ENH #2242	Will now accept a work area as the basis for the selection.
	ENH #0523	Allows <b>ZIP/STATE</b> check without using <b>ISCSZ</b> .
	ENH #5430	<b>SCNSPLT</b> work area has been increased from 99 to 256.
	ENH #5787	New <b>LISTON/LISTOFF</b> parameters to turn print on/off for parameter list.
	BUG #890	Corrected <b>LINE OF TRAVEL (LOT)</b> conflict with <b>EXITOP</b> .
	BUG #2230 and 2249	Now will handle 2 <sup>nd</sup> and 3 <sup>rd</sup> suffixes.
	BUG #2530	Corrected % in <b>LCP90</b> .
	BUG #2531	Blank file codes will no longer reject.
	BUG #3700	Isolate address will now return directionals.
	BUG #3826	Names with initials and suffixes will no longer parse as companies.
	BUG #4641	Corrected documentation/product conflict for work area length.
	BUG #4655	<b>EXITOP</b> now uses 10 character program.
	BUG #5441 and 5491	Zero suppress option in the format parameter will no longer abend.

\*\* NOTE: AS/400 customers will not see the parameter records. Conversion from the old to the new parameter records is handled automatically during installation for all jobs in your work library. However, the parameter records may be viewed by editing PRMLCjobname in your work library. You may identify your work library by entering the "Word with jobs" screen. It will be in the far right column next to your job name.
